Made by celebrated American makers. Fine grades of Kangaroo leather are used in their manufacture which suggests a repetition of the story of its virtues for excellence of wear—its superiority over all other fine leathers that enter into the making of strictly fine dress shoes. Kangaroo leather is very light and thin and is specially adapted for summer time wear. It has the strongest fibre of any known leather of equal weight. Cafskin equally as light and thin in no respect bears comparison with it. Moreover, kangaroo leather does not stretch and lose its shape as do all soft leathers. It resembles lustreless kid; has a glove like finish and is easy to blacken when soiled.

The makes of Kangaroo Shoes here are recommended for durability and for neatness and attractiveness of shape. Are produced with special regard to the requirements of office and professional mer. They also serve admirably as society shoes for all fine decreases and server.

Are produced with special regard to the requirements of office and professional mer. They also serve admirably as society shoes for all fine dress occasions. The more they're worn the stronger grows their lking.

Great care has been given to the selection of lasts over which these shoes have been shaped, the most popular of which are the Globe and Paris toes. They are fashioned upon scientific principles that are in strict accord with the anatomical structure of the foot, fitting comfortably every part of it and giving freedom of action to the muscles and joints. The softness and pliability of the leathers used combined with the special care taken in the making and shaping of these shoes insure case and comfort in wear, and they often prove a curative of the ills with which many feet are afflicted.

we have Kangaroo Shoes in different grades—the finest made as well as the commonest worthy of and meriting con-fidence. All the widths and lengths necessary to ensure perfect fitting quali-ties—slim, medium or wide. Prices range from \$4 to \$6. Examination solic-ited.

Just as good as the 'Royal" either in strength,
The "Royal" is superior to all others in all ways.
The "Royal" is from their practical experience, and the reports
overnment investigations show it officially. The Government

Both ways the "Royal" is "undoubtedly the purest and most reliable baking wder offered to the public." If some grocers try to sell another baking powder in place of the "Royal" they do so because they can make a greater profit upon the other; good evidence of the superiority of the "Royal." To give greater profit the other must be a lower-cost powder, and to cost less it must be made with alum or cheaper

and inferior materials. Because the "Royal" uses more highly refined and expensive materials it costs more to manufacture than any other baking powder, but it is correspondingly purer and higher in leavening strength, and accordingly of greater money value to consumers, although the retail price to them is generally the same. Consumers are entitled to full value for their money, and therefore will not, if

wise, accept any substitute for the "Royal." Unfortunately, not only are many of these would-be substitute powders made from inferior and unwholesome materials, but they are placed before the public with advertisements intended to mislead as to their true character. A powder advertised by its manufacturers to have printed upon its label all the ingredients used in it, proves upon analysis to have in its composition four substances not named upon its label, two of which are lime and sulphuric acid. Most of the alum powders are fraudulently sold as pure cream of tartar goods.

The danger incurred, should such powders be substituted for the "Royal,"

will be apparent to every consumer. Mem Abvertisements.

Counsel Besist the Incorporation of the German United Brethren in Christ.
Court met specially at 10 o'clock this morning to hear the application for a charter for the German United Brethren in Christ, Mt. Joy township. The petitioners were represented by Brown & Hensel. The petitioners for the charter are David B. Myers, Christian Schumacker, Benjamin Brubaker, Mary Myers and Kate Spickler. The purpose of the corporation is "the public worship of Almighty God according to the tenets, faith and discipline of the religious denomination known as the United Brethren in Christ."
The granting of the charter was objected to by A. F. Hostetter and N. F. Hall, representing a dozen residents of Mt. Joy township on the ground that the observer hearter

The men went over the dam, but the boat died not upset, and the men escaped without even a wetting.

The suits against the delinquent subscribers of the Columbia Wagon company were heard before Squire Evans last night. The squire gave judgment in all the cases.

and they had no opportunity of examin-ing the same or learning its contents, or the names of the corporators; because Christian Schumacker nor David B. THE BARTENDERS' PICNIC. Great Crowds and Good Order at Tells Hain Yesterday.

Hain Yesterday.

The largest picnic of the season by far was that of the Bartenders' association, which was held at Tells Hain. It lasted from early Monday afternoon until late at night. The crowd was of great size and the motor car was filled almost every trip, either to or from Witmer's bridge during the afternoon and evening. At times it was so crowded with people that the wonder was that many did not fall off. It was twelve o'clock before the cars stopped running and they hauled people almost steadily up to that time.

Notwithstanding the fact that an awful quantity of beer was consumed, and a rather queer crowd was on the grounds, the management succeeded in maintaining good order during the day and evening. There were several constables and police officers on the ground, and, although several parties made attempts to get up fights, they were quickly informed that that kind of conduct would not go there and they would be ejected or locked up. In about every instance when there was any fuss at all the quarrels were started by dranken young men who in town pretend to be very respectable but at micnics.

by dranken young men who in town pre-tend to be very respectable but at picnics try to ran everything. The tongher elementhad more sense; they were orderly and their conduct was far better than some of the people who want to sail much higher. The picnic was a big success financially. Death of a Farmer.

The funeral of John Rohrer, of East Lampeter township, who died on Satur-day, took place from his late residence this morning. The interment was made at Mellinger's meeting house. The cause of Mr. Rohrer's death was blood poison, the result of pricking his finger with a thorn some time ago.

Lockjaw Killed Him. Some time ago a cow stepped heavily upon the foot of Amos Haverstick, a sixyear-old son of Amos Haverstick, farmer, of Pequea township, near Danville. The toe was so badly injured that it was found necessary to amputate it. Lockjaw set in, causing the boy's death. The funeral took place this morning at the Meunonite stone church.
