Bell's Offer to Cameron. Frank G. Carpenter writes from Washington to the Pittsburg Dispatch:

I once chatted with Senator Thomas W. Palmer! row minister to Spain, about riches, and he told me that when a man had \$40,000 a year it did not make much difference whether he had any more or not. I understand that Don Cameron not long ago said that his income was \$50,000 a year.

difference whether he had any more or not. I understand that Don Cameron not long ago said that his income was \$00,000 a year, but \$7,000 a month will not buy Don a good atomach, and he has more dyspepsia than though he were working for a dollar a day. He inherited a large amount from his father, but Simon Cameron used to say that Don was a much better money-maker than he was, and Senator Cameron's investments are in railroad stocks, mines and lan's. H3 owns a great amount of property in Washington, both suburban and city property.

He rarely buys a square foot of land that does not double in value before he sells it. He got \$06,000 for his house on Scott circle, and he paid \$67,000 for that in which he now lives rear the White House. He owns lands at Harrisburg, and is president of a bank at Middletown, Pa. He is among the senators who have lost big chances during life, and his biggest mistake was perhaps that connected with the Bell telephone. Shortly after Bell had made the invention he came to Washington, and the stock was hawked about here for ten cents on a dollar. Among others Senator Cameron was called upon, and Bell offered him a controlling interest in the company for \$6,000, and Cameron, though he said he was sure the upon, and Bell offered him a controlling interest in the company for \$6,000, and Cameron, though he said he was sure the thing would pay to some extent, had no idea that it would bring in something like \$2,000,000 a year and refused to take it. The result was that Bell left his house very much disappointed, and it took him lots of time and trouble to get the money elsewhere. Cameron, in speaking about the matter, said some time ago that he believed the invention was a good one, but that his money was so tied up that he did not like to risk the amount on it.

A Baby With Two Heads.

The wife of Charles Wilke, a German laborer, of Trenton, N. J., presented him on Sunday with a fully developed male child with two heads. About the middle of the back there was a bifurcation of the spinal chord, each branch leading up to a head. The right hand was considerably smaller than the left. It was five inches in diameter and the left was only three. This is the second child Mrs. Wilke has had. There was nothing umusual about the first. Dr. William McD. Struble, who attended the mother, says the child was alive just previous to birth, but that it never breathed afterward. The news of the affair spread rapidly through the city, A Baby With Two Heads. the affair spread rapidly through the city, and hundreds of people went to the Wilke household to see the monstrosity. It was buried later in the day.

A Young Girl Murdered. Clara A. Jones, a young girl, was found near Gallitzin in the woods on Sunday with her throat cut from ear to ear. Harry Morris, a young man, surrendered himself to the authorities as the person who committed the deed and is now in jail. He stated that he committed the deed at the restated that the state of t quest of the girl, who wanted him to kill her. He first struck her upon the head with a car pin and afterwards cut her throat. He had been drinking and the couple had spent the night in the woods.

miners have all contributed their quota of testimony in its behalf, and its protective influence has been most effectually demonstrated in
regions and under conditions where, if not
really effective, that fact would long since have
been exposed. In no class of disorders have its
remedial and preventive properties been more
conspicuously shown than in cases of malarial
fevers, maladies for which it is the most popular specific in in existence, both here and in the

HOOD'S SARSAPARILLA.

Is a good motto to follow in buying a medicine, as well as in everything else. By the universal satisfaction it has given, and by the many remarkable cures it has accomplished, Hood's Sarsaperilla has proven itself unequalled for building up and straightening the system, and for all diseases arising from, or promoted by, impure blood. Do not experiment with any unheard of or untried article which you are told is "as good as Hood's," but be sure to get only Hood's.

UNDOUBTEDLY EXCELLENT.

"I have been very much opposed to so-called patent medscines, but must be honest and say that Hood's Sarsaparilla is undoubtedly an excellent preparation of great curative power, for I know of many parties who have been vasily benefited by it." Dr. C. M. Fager, 1223 Ridge Avenue, Harrisburg, Pa.

Hood's Sarsaparilla

100 DOSES ONE DOLLAR

You cannot have without pure blood; therefore to keep well, purify the blood by taking Hood's Sarsaparilla. This medicine assists nature to expel from the system all humors, impure particles, and effete matter through the lungs, liver, bowels, kidneys and skin. It effectually aids weak, impaired and debilitated organs, invigorates the nervous system, tones the diges tion, and imparts new life and energy DYSPEPSIA.

Good Health

"I suffered a great while with dyspepsis, and tried a good many remedies. A friend urged me to try Hood's Sarsaparilla, and I have now taken two bottles. It has entirely cured me of dyspepsis and a scrofulous affection as also entirely disappeared. I can hardly find words to express my high appreciation of Hood's Sarsaparilla." ALLEN H.
