SALT AS A DISSIPATION. fact of Its Excessive Use On the Gentle

Salt, the least harmful of condiments, if such a necessary article of diet can be sermed a condiment, is by the medical profession recognized as a species of dissipation in its excessive use among many women. Every one knows how lat and flavorless all food becomes when the system is a trifle deranged; it is just then, when men resort to bitters and burning sauces to tone up their jaded appetites, that women find their sole resourse in the apparently innocent salt cruet. It is the old story of giving an inch to yield an ell, and before the victim knows it, her plate demands a double or triple quantity of the mineral to savor every morsel she companied by a deepening of every hard selections as the sales and before the pink to keep of the pink deepen as to sale not only the substantial lishes, but lea, coffee, fruit, nuts, sweetnesses and wine. They begin by taking pinch extra now and then to pique their sates, and before long steal a bit to keep a the pocket, or buy a crystal to nibble on he siy. Nature's revenge on her weak aughter is as insidious as the result her manutable laws have suffered. She files for first signals of distress in a deadening of the skin, replacing the pink glow of seath by a dim, yellowish pallor. Lips and cheeks blanche alike, this change being companied by a deepening of every hadow on the face. This is as nothing, however, to the destruction this norbid habit works on a woman's rowning glory, her hair. And it is asonishing how sensitive the hair is to every luctuation of one's health. Soon each lime the comb research the harries to every luctuation of one's health. mishing how sensitive the hair is to every uctuation of one's health. Soon each me the comb passes through it brings reat handfuls of long, shining strands, o lotion or tonic is effective in checking se loss, and, unless corrected, the abormal amount of salt in the system will roduce partial baldness. Even now quite number of women are under treatment, one avowedly and others secretly, for this rm of excess.

Japhet C. Allen, of Amboy, gave a dose of the genuine Dr. C. McLane's Celebrated Vermifuge to a child six years old, and it brought away 83 worms. He soon after gave another dose to the same child, which brought away 50 more, making 138 worms in about 12 hours.

Mrs. Quigby, No. 182 Essex St., New York, writes us that she had a child which had been unwell for better than two months. She procured a bottle of the genuine Dr. C. McLane's Vermifuge and administered it. The child passed a large quantity of worms, and in a few days was as hearty as ever it had been. Parents with such testimony before them should not healtate when there is any reason to suspect worms, and lose no time in administering the genuine Dr. C. McLane's Vermifuge. It never falls and is perfectly safe.

This is to certify that I was troubled with a tape worm for more than six months. I tried all the known remedies for this terrible affliction, but without being able to destroy it. I got a bottle of the genuine Dr. C. McLane's Vermifuge, prepared by Fleming Bros., Pittaburg, Fn., which I took according to directions; and the result was I discharged one large tape worm measuring more than a yard, besides a number of smail ones.
