### OUTSIDE THE PARTY TRACES.

Republican Senators Outspoken in Op-position to the Elections Bill. Benator Paddock, of Nebraska, has been tailing his Republican associates some in-teresting facts about the sentiment in the Eastern states regarding the federal elec-ton bill. Senator Paddeck has recently returned to Washington from a trip to that section. While in New York and Boston section. While in New York and Boston be met a number of prominent business men, the majority of whom are Republicans and all of whom denounced the measure in strong terms. Senator Paddock himse'f i antagonistic to the bill and does not i saitate to say that he will vote against it. It initiagonistic to the off and door in which to say that he will vote against it. When the Nebraska senator came back to Washington he scattered these facts with blunt Western frankness among his party associates, with a result which is described as little short of paralyzing. Mr. Pad-dock's position on the elections bill will prove very gratifying to the opponents of the measure, who in the absence of knowl-edge to the contrary have regarded him as one of its supporters. Senator Washburn, of Minnesota, is also among the Republicans who refuse to be

Senator Washburn, of Minnesota, is also among the Republicans who refuse to be driven by the crack of the party lash into a support of the bill. He is quoted as say-ing in conversation that injury has always resulted to parties which favored legisla-tion of this character. The people in his part of the country, he said, have no inter-ests in the bill, and he, like Senator Pad-dock, will yote against it if ever it comes before the Senate.

Sensor Aldrich, of Rhode Island, is said to find his connection with the bill an embarfassing one. The city of Providence is largely interested in the Southern trade is largely interested in the Southern trade through its steamship line and manufac-tories. The people at the head of these various enterprises are uniformly Repub-lican in politics, but they realize that the passage of so obnoxious a measure cannot fail to engender had feeling and in the end work them no little injury from a commer-cial standpoint. For this reason they are urging Senator Aldrich to use his influence against the adoption of the bill in any manner that to him may seein proper. The list of Republican senators opposed

manner that to him may seem proper. The list of Republican senators opposed to the bill up to the present time is ten in number, embracing such gentlemen of prominence as Mr. Edmunds, of Vermont; Mr. Paddock, of Nebraska; Messrs, Tel-ler and Wolcott, of Colorado; Messrs, Washburn and Davis, of Minnesota; Messrs, Jones and Stewart, of Nevada; Mr. Hale, of Maine, and Mr. Plumb, of Kansas.

A Famous Lancaster Countian. From the Philadelphia Inquirer.

When Dr. David Hayes Agnew runs up When Dr. David Hayes Agnew runs up to Lancaster, where he is often called pro-fessionally, he is always reminded of old times and his boyhoood days as the train sweeps around North Bend and thunders through the little village of Christiana. It was in Sadsbury township, among the Octoraro hills, within two miles of Chris-tiana that the doctor was born 72 years ago. liana, that the doctor was born 72 years ago His father, Dr. Robert Agnew, was a phy-sician with a wide reputation, who prac-ticed extensively in Eastern Lancaster county and contiguous portions of Chester. He long since joined the majority beyond, but old inhabitants yet allude to Dr. "Bob Agnew with affection and respect. His father died in 1839, one year later, and the sign, "D. Hay es Agnew, M. D.," was nailed to a shutter in the village of Soudersburg, ten miles from Lancaster. "In this place," says one who knew him well, "he didn't make his salt." This was no fault of Dr. Agnew, but was due to the all-absorbing prac-tice of Dr. Nathaniel Sample, a famous physician of that time and vicinity. The young physician then went into the iron business with a Mr. Irvin, of Chester county' but this venture, too, did not pan out well, and about 1840 he sottled in Philadelphia. An inserutable something, perhaps, was An inscrutable something, perhaps, was forcing him to the career for which, in the forcing him to the career for which, in the light of subsequent events, he seems to have been destined. Dr. Agnew's sister, Mrs. Wallace, is yet living with her son, John S. Wallace, near Cedar Grove Presbyterian S. wannee, near county. These terms church, in Lancaster county. She is over 80 years of age. A cousin of the doctor's is Judge David Watson Patterson, who is now serving his second term on the Lancaster bench.

St. Stephen's Lutheran church will picnic at Tell's Hain on Thursday and on the same day Zion's Lutheran church and Sunday school will be at Rocky Springs. Both churches will use the electric cars to Potts' Landing and as the congregations are large the street cars will be unable to carry the crowds with their present

facilities. The Presbyterian Memorial Sunday school will hold their annual pienic at Penryn park on Wednesday. The programme of the day's amusements includes base ball, boat and other races, and athletic sports. For the general entertainment a brass band has been secured. Miss Jennie Lamparter, of Philadelphia,

who has been spending three weeks with her friend, Miss Mary Groetzinger, of this city, with whom she became acquainted at the famous ladies' school in Reutlinger. Wurtemberg, Germany, returned home to day.

The Tycoon club, composed of Samuel Zecher, William Martin, John Martin and Milton Jeffries, left the city on Saturday evening for Hartman's Island, where they will remain one week.

City Superintendent R. K. Buehrle will go to Pottsville to-morrow to attend the interstate summer school. He will be absent two weeks.

CITIZENS COMPLAIN.

They Think The Street Car Company Overcharges Them.

Mayor Clark's attention was called to day to a violation by the Lancaster City Electric railway of part of the city ordinance under which it was granted many privileges.

The ordinance prescribes a fare of five cents from one end of the city to the other. Under the rules of the company a passenger of any of the lines that desires to be transferred to the electric line must pay seven cents for an exchange ticket. Very frequently the drivers of these cars do not have such tickets, and then the expense is ten cents : five cents for horse car and the same amount for the electric line. As the same company is operating all

the lines except the West End, citizens think that the fare should be but five cents, even if it is necessary to transfer to the electric road.

Senator Ingalis on Public Life. Senator Ingalis on Public Life. In a recent interview, in the New York World, Senator Ingalis is reported as my-ing that "the public service and public men have not kept pace with the natural development of the country. I do not mean to say thist we have no great men, but the public service does not command the greatest because the highest rewards of intellectual activity are found in other avo-cations. Public life has degenerated into a species of servitude, and the inevitable tendency is toward mediocrity and pusil-lanimity." lanimity.

lanimity." In another part of the same interview he says: "The hope that political equality would result in the destruction of poverty, and in social fraternity, has not been realized. There are larger private fortunes, there is greater political power in fewer hands; in other words, there is more tyranny in the republic than in a monarchy. The strongest succeeds more readily and more rapidly here because, liberty being common to all, there are no restraints and limitations to

#### Budy in the Penitentiary.

Sheriff Burkholder and Deputy Levan delivered John W. Rudy to the officials of the Eastern penitentiary on Saturday morning. When brought from the Lancaster jail early on that morning Rudy lained of feeling sick. He said he had been unable to cat any breakfast. On the road to Philadelphia he appeared to be cheerful, and when the penitentiary gate shut on him, for the last time, if the sentence of the law of life imprisonment is carried into effect, he betrayed no emotion. The sheriff did not wait at the penitentiary to see Rudy examined and clothed in the prison garb. Robbed of Silverware.

An upstairs room of No. 605 East Orange street, occupied by E. R. Kindig and wifewhile at home in Lancaster, was entered while they were away by a thief, who took from a drawer one dozen silver knives and forks, and one dozen silver spoons. The caspoons and butter knives were left in the same drawer from which the articles had been stolen. Nothing else was disturbed. Mr. Kindig thinks he knows who the guilty party is. Mr. Kindig also says the people living in the house at present have had nothing to do with the theft.

Returned to Court. George Foust, charged by Christian Miller with threatening to do him harm, was required to give ball by Alderman A. F. Donnelly to answer at the August term of the quarter sessions court. Louisa, Ida and Mary Hoopes, charged

with disorderly conduct, were heard by the same magistrate on Saturday evening. Decision was reserved. The cross actions brought by the Hoopes

against the Millers will be heard by Alderman Barr to-morrow. Pickering's Team.

### Officer Jefferis, of West Chester, will be

in Lancaster in a day or two to get the team abandoned by Frank Pickering, the horse thief. The officer writes that he will be able to show that Pickering became possessed of the team through a trade for property he had stolen.

Another Victim. The proprietor of the Lloyd house, Phillipsburg Pa., writes to Chief Borger that W. A. Seaman swindled him out of board bill in 1885. He requests the chief to get some \$30 from Seaman.

#### MRS. CAIRN'S REVENCE.

A Colored Training School Planted the Centre of a Suburb.

A dispatch from St. Louis says that Kirkwood, one of the most aristocratic suburbs of St. Louis, is violently excited over the sale of a female seminary in the heart of the place to a syndicate of wealthy negroes who will turn it into a manual training school for colored boys. Mrs. Anna Sneed Cairns has for nineteen

years conducted a female seminary that draws patronage from all over the United States. She is a a strong-minded woman, States. She is a a strong-minded woman, well known in the ranks of advanced thinkers. Her husband is one of the best known architects in St. Louis. Two years ago Mrs. Cairns got into a quarrel with the town board of Kirkwood over a trivial complaint about a drain pipe that was declared a nuisance, and which she refused to remove. The matter was taken into court, and was carried up until it reached the state court of appeals, where it now is. In the meantime the town board persecuted her in many small ways and she fought back. Finally she determined to take her seminary away from Kirk

wood. When she announced this, the people thought she would not laughed, for they thought she would not do it, as she owned the property. She bought property elsewhere and began the erection of a new seminary, which will be ready for occupancy in October. Then she sought a purchaser for her Kirkwood prop-erty, ex. Minister to Liberia Turner raised money for the training school and overbid Kirkwood people, paving \$32,000, of which \$10,000 is given by Henry Bridgewater, a wealthy owner of gambling hells and sa-loons. The Peabody fund furnished \$5,000. Mrs. Cairns smiles screnely and says that Kirkwood should be proud of the new in-

THE COFFIN BLEW UP.

Many Difficulties Attended the Burlal of Mrs. John Peterson.

of Mrs. John Peterson. A most singular burial took place at Springfork, Mo., on Saturday. Among the early settlers of the county were a young German named John N. Peterson and his wife. Last Thursday Mrs. Peter-son died of dropsy. At the time of her death she was a remarkably large woman, weighing nearly three hundred pounds. Immediately after Mrs. Peterson died, arrangements were made for the funcral. The largest casket to be procured was the exact measurement required at the time of death, but as it was not delivered until Friday morning, the body had swollen so Friday morning, the body had swollen so much that it was crowded into the casket with much difficulty. The lid was then screwed down and the body left in that condition for burial. Ice could not be produced. The funeral services were set condition for burial. Ice could not be provured. The funeral services were set for Saturday afternoon and, as is customary, a number of neighbors acted as watchers Friday night. At midnight the watchers were startled by a lond report in the room where the coffin had been placed. It was found that the gases of the body had ac-cumulated within the casket until their force burst the glass over the face of Mrs. Peterson. So great was the force of the explosion that the body was shot forward and upward, the head protruding from the coffin.

coffin. A consultation was held and it was de-cided that owing to the condition of the body the burial should take place at once. The grave having been prepared the coffin was carried to the burial place and strong ropes were placed under the casket. Just as the coffin was being lowered one of the assistants let go of his end of the rope. This threw the weight to the head of the coffin and the ropes were jerked from the hands of the men stationed there. The coffin fell with great force, head down, and burst to pieces. Another consultation was held and it was decided to fill up the grave at once without waiting for another casket.
