PREAMBLE AND RESOLUTIONS.

In the language of the eminent statesman at the head of our national government, the Democracy of Pennsylvania reiterate with grateful hearts— "that, no country has been so much favored, or mens may be seen at his offico. By analysis, it is should acknowledge with deeper reverence the manifestations of the Divine Providence; that the uccess of our admirable system is a complete refu-ation of the theories of those in other countries, who maintain that a favored few are born to rule, and that the mass must be governed by force." The various interests of agriculture, manufactures, and commerce, are most prosperous. The home market of a vast continent, bounded on the east by

the Atlantic, extending to the Gulf, thence on the south by the Rio Bravo del Norte, with a coas upon the Pacific Ocean to the Columbia river north secures to bur enterprising citizens advantages of rade, without parallel in the history of nations. Our political system is the admiration of mankind;

A. Diseases, at this time shows that there are particular cases that render still too applicable the designation, approbia medicorum—the disgrace of physicians—to this call of diseases; and that there are stages in their progress, which having once been reached, recovery is doubtful. Still no one should despair. The writings of physicians, who have given to here affections particular attention, abound with snany recorded cases of recovery when the patient had reached a seeming hopless stage of the disease; and there is at this time, a remedy prepared in Philosophia which has met with the most triumphant and cheering success in the most obstinate forms of Throat and Pulmonary Diseases—so as to have obtained the scanction and employment in the practice of many physicians. Allusion is had to Thompson's Compound Syrup of Tar and Wood Naptha—the preparation of one, who, having given to diseases of the Lungs and their means of cure, the most careful and theorough attention, presented to the public this great remedy. The soothing and curative power of TAR has often deer observed in severe coughs, and Consumption.
