LIHOUGH the great fatality of Pulmonary Diseases, at this time, shows that there are particular cases that render still too applicable the designation, approbia medicorum—the disgrace of physicians—to this call of diseases; and that there are stages in their progress, which having once been

physicians—to this call of diseabes; and that there are stages in their progress, which having once been reached, recovery is doubtful. Still no one should despair. The writings of physicians, who have given to these affections particular attention, abound with many recorded cases of recovery when the patient had reached a seeming hopeless stage of the disease; and there is at this time, a remedy prepared in Philadelphia which has met with the most triumphant and cheering success in the most obstinate forms of Throat and Pulmonary Diseases—so us to have obtained the sanction and employment in the practice of many physicians.

Allusion is had to Thompson's Compound Syrup ment in the practice of many physicians.

Allusion is had to Thompson's Compound Syrup of Tar and Wood Naptha—the preparation of one, who, having given to diseases of the Lungs and their means of cure, the most careful and thorough attention, presented to the public this great remedy.

The soothing and curative power of TAR has often been observed in severe coughs, and Consumption. But in the above preparation has identified the severe coughs. often been observed in severe coughs, and Consumption. But in the above preparation, beside some of our most valuable vegetable pectorals there is conjoined with it the Wood Naptha, a medicine but lately introduced, but which has been employed with mostsatisfactory results in England, in Pulmonary Consumption, especially of a Tuberculous form.
