It is rightly termed All-healing, for there is exercely at cisease, external or internal, that it will not benefit. I have used it for the last fourieen years for all diseases of the chest, consumption and liver, involving the utmost danger and responsibility, and I declare before I feaven and man, that not in one single case has it failed to benefit when the patient was within the reach of mortal means. I have had ministers of the Gospel, Judges of the bench, Aldermen, Lawyers, genichemen of the high est erudition, and multitudes of the poor use it in every variety of way, and there has been but one voice—one universal voice—saying "McAllister, and Eastern cities, expects to visit the principal wor Gintment is good."

SAMUEL WAGNER. We have in operation in our counting-room one of "Hedenberg's patent air-tight coal stoves," which, by actual and constant use, for more than two months, we give the decided preference to any stove with which we are acquainted. The supp riority of this stove over every other kind with which we have any knowledge, is that it dispenses a pleasant and healthy heat throughout the room equally—consumes very little coal—is easily kept in order—and there is an enire absence of dust. We have some knowledge of almost every kind of stove heretofore introduced to the public, but cor-fi tendy give this the preference.
