THE THAI OF CHIEST.

The proper and and imposing Exhibition of Statuary, representing the trial of our Saviour before. Pontius Pilate, in a group of 23 figures the size of life, splendidly dressed in appropriate costume, is now open for exhibition at the MUSEUM.

Mr. Landis takes pleasure in announcing to the public, that this beautiful group has had his whole attention, together with that of several of the most talented artists for some months past; and he flaters himself that for correctness of expression, comters himself that for correctness of expression. ters himself that for correctness of expression, com-bined with truthful accuracy, it will far excel any thing of the kind ever exhibited here. This spleadid group is the production of a cele-brated artist, and is intended to represent that mo-ment in: the Trial of our Saviour, when Caiaphas says to him, "I adjure thee by the living God that thou tell µs whether thou be Christ the son of God." thou tell us whether thou be Christ the son of God."
Jesus answers, "Thou hast said: nevertheless I say unto yon, hereafter shall ye see the son of man sitting on the right hand of power, and coming in the clouds of Heaven."

This was equivalent to calling himself the son of God, which of course, was considered by the High Priest as blasphemy; and he immediately raised his hands in affected horror and says, "He hath spoken blasphemy: what further have we need of witnesses? Behold now ye have heard his blasphemy."

The scene illustrates the appearance of the Roman Court, under Pontius Pilate, and the Jewish Court, under Caiaphas, the High Priest; and the man Court, under Pontius Pilate, and the Jewish Court, under Caiaphas, the High Priest; and the group in costume, and decorations of the times are in strict accordance with ancient history.

The Trial scene will be exhibited in connection with the Museum; and notwithstanding the great expense attending the getting up this grand spectacle, the admittance as usual will be but 25 cents.

N. B. Schools in a body admitted at a low rate. Open every day and evening. Pamphlets describin the Trial can be had at the Museum for 6; ets. may 18 : 16-1y

It has been proved that nearly every disease to which the human frame is subject, originates from impurities of the Blood or Derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the Blood to its natural state. This fact is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired Constitution or a fit of sickness rebukes them for the folly of their conduct. Still they had some expuse for herefolgree, medicine in Still they had some excuse, for heretofore, medicine i almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for Clickner's Vegelable Purgative Pills, being completely enveloped with a coar-ING OF PURE WHITE SUGAR, (which is distinct fro the kernel) have no taste of medicine, but are as easily swallowed as bits of candy. Moreover they do not swantowed as one of candy. Moreover they do not nauseate or gripe in the slightest degree, which is occasioned by the fact that they are compounded on scientific principles and operate equally on all the diseased parts of the system, instead of confining hemselves to, and racking any particular region. (which is the great and admi known purgative.) Hence they Strike at the Root of Disease, remove all impure humors from the body, open the pores externally and internally, promote the Insensible Perspiration, obviate Flatulency, Headache, &c.—separate all foreign and obnexious particles from the chyle, so that the blood, of which it is the origin, must be thoroughly pure—secure a free and healthy action to the Heart, Lungs, and Liver, and thereby restore Health even when all other means have failed. The entire truth of the above can be ascertained by the trial of a single box; and their virtues are so positive and certain in restoring Health, that the proprietor, hinds himself.

Very fow families indeed—in that we have not heard of one—that used Dr. Townsend's Sarsapaparilla in time lost any children the past summer, while those that did not sickened and died. of its value, and is another instance of its saving the lives of children:

Dr. Townsend—Dear Sir: I had two children cured by your Sarsaparilla of summer complaint and dysentery; one was only 15 months old and the other three years. They were much reduced, and we expected they would die; they were given up by two respectable physicians. When the doctor informed us that we must lose them, we resolved to try your Sarsaparilla which we heard so much of but had little confidence, there being so much stuff advertised that is worthless; but we are very thankful that we did, for it undoubtedly saved the lives of both. I write this that others may be induced to use it. Yours, John Wilson, jr.

I have used four bottles of your Sarsaparilla and they have done me nore than one thousand dollars worth of good—I am so much better—indeed I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours respectfully. Yours respectfulty, JAMES CUMMINGS.

In a short period it removed her complaints, and restored her to health.—
