Glass Ware, embracing all the varieties ever imported, which they will sell in large or small quantities, wholesale or retail, to suit the wants of the people, at prices to defy competition.

The advantages to be derived from having a large k to select from, ought certainly to be apparent o every one; only two need be mentioned;

1st. The variety to please the taste.
2d. The advantage of purchasing at the lowest rices; for it is certainly evident to every thinking nind, that the larger the business done, the smaller the profit required. It is so in every branch of er the profit required. It is so in every branch of trade. The manufacturer sells to the wholesale package dealer; the wholesale package dealer sells to the jobber, and the jobber to the retail country dealer; so that the farmer or the consumer of the article pays at least four profits!

Why pay so many profits when you can come directly to head quarters?

Bank of Chester County.

January 12, 1848. THE public are notified that the money stolen from the President of this Bank has not been recovered, and that the Bank has issued new notes, differing from the old as follows, to wit:

The Fives, Tens, and Twenties, have printed, in Red ink, on the backs, a combination, lathe work design, with the amount of the notes in figures, and the words "New Issue" across the middle of the design.

or The Fifties and Hundreds, of former issues, were printed in black ink—the new issues are printed in black of stone—a medallion head, with 500 on it, to the right of the vignette. The left end of the note has a head of Washington, with 500 above and below. The right end has a full length female figure, representing Ceres standing on a square lathe work block, with the figures 500 in it. These are printed in black ink.

The former issues of \$500 have a farming scene, with haymakers for a Vignette, with figures 500 on each side, each end has a medallion head in the middle, with 500 top and bottom, on square lathe work blocks, and printed in black ink.

The One Thousands of the new; issues have for a Vignette a Railroad, view of locomotive and cars coming round a curve, &c., on the left end of the note an engraved female head, top and bottom, and a square block with figures 1000 between them; on the right end a head of Washington, with 1000.

a square block with figures 1000 between them; on the right end a head of Washington, with 1000 top and bottom, on square blocks, and printed in blue link. The former issues of \$1000 have for a Vignette a drove of cattle passing through a toll gate—a man paying toll to a woman at toll house door—figures 1000 on each side of Vignette—both ends have a 1000 on each side of Vignette—both ends have a nedallion head in the middle, and figures 1000 in quare blocks, top and bottom, and printed in black The new notes will bear date in the year 1848.

The stolen notes bear date in 1847 and prior years.

Caution on the part of Banks, Brokers and others, in receiving notes of the old issues, except from persons of known integrity, would assist in detecting the robbers.

Joseph Taylor, 127 York st., Brooklyn. Two Children Saved.

Very few families indeed—in fact we have not heard of one—that used Dr. Townsend's Sarsapa-parilla in time lost any children the past summer, while those that did not sickened and died. The certificate we publish below is conclusive evidence of its value, and is another instance of its saving the lives of children: Dr. Townsend—Dear Sir: I had two children

Dr. Townsend—Dear Sir: I had two children cured by your Sarsaparilla of summer complaint and dysentery; one was only 15 months old and the other three years. They were much reduced, and we expected they would die; they were given up by two respectable physicians. When the doctor to two respectance physicians. When the doctor informed us that we must lose them, we resolved to try your Sarsaparilla which we heard so much of but had little confidence, there being so much stuff advertised that is worthless; but we are very thankful that we did, for it undoubtedly saved the little of the confidence of the confiden lives of both. I write this that others may be indu ced to use it. Yours, John Wilson, jr.

Blackwell's Island, Sept. 14, 1848. Dr. Townsend-Dear Sir: I have suffe bly for nine years with the rheumatism; consi ble of the time I could not eat, sleep, or work: had the most distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla and they have done me more than one usand dollars worth of good-I am so better-indeed I am entirely relieved. You are at liberty to use this for the benefit of the afflicted.

Could not Walk. That Dr. Townsend's Sarsaparilla is the very best remedy for female complaints there is no disputing: thousands and thousands of weak and debilitated thousands and thousands of weak and debilitated females that were prostrated by those diseases to which females are subject were soon in the enjoyment of robust health. N. Y. Sep. 23, 1847. Dr. Townsend—Dear Sir: My wife has for the last year been very sick, and in a greatly reduced state of health, being reduced by a variety of complaints such as females are liable to; she got so bad at length that she was entirely unable to walk, and was as helpless as a child; she commenced using your Sarsaparilla, and she inmediately began to regain her strength, her complaints left her, and after taking several bottles she is restored. Being a singular case I have thought it might do good to publish it. She used a number of remedies that done her no good previously. Yours respectfully,

publish it. She used a number of remedies that done her no good previously. Yours respectfully, Join Mullers, 87 Norfolk street.

To the Ladies—Great Female Medicine.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient consumption, and for the general prostintion of the system—no matter whether the result of inherent cause or causes, produced by irregularity, tilness or accident. throughout the country, being put up in much larger packages, sufficient to cure an ordinary case of Heaves, and to administer in a dozen cases of cold, catarrh, &c.

At this season, while the Horse is shedding his coat, his vital energy is much reduced, and he is extremely liable to colds, &c., many cases of incipient Heaves are contracted now, but are suppressed by pasture or warm weather, till they break out with full force in the fall. Thousands of Horse can be saved from future unsoundness, if, when the first symptoms of 'old or whersing is observed, a five diametered. They are warranted to wholly exalicate recent Heaves at this season. They stimulate the skip to cast off the superthous hair and produce new; they loosen the hide, give a glossy appearance to the coat, protect against disease; they also, from thoir fine alterative and restorative powers, purify the blood and renovate the system, which horses require at this season as much as any of the human race, who find a preparation of sarsanarilla useful to correct the visited extended.

that critical period, "the turn of life," should neglect to take it, as this is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by taking this medicine. It braces the whole system, renews permanently the natural energies—by recognize the medicine. It braces the whole system, renews permanently the natural energies—by removing the impurities of the body—but so far stimulating the system as to produce a subsequent relaxation, which is the case of most medicines taken for fermally weathers and disease.

Disease of the Heart, Rupture and Dropsy.

New York, July 22, 1846.

Dr. Townsend—Dear Sir: My wife has been afficted with a disease of the heart, and with a terrible rupture for over fifteen years, the greater part of the time. She has been troubled with shortness of hireth and great dyttering of the time. of the time. She has been troubled with shortness of breath, and great fluttering of the heart, which has been very distressing, and has frequently been unable to feave her bed. The rupture was very large and severe. She tried almost every remedy for such cases with but little benefit. When she had taken but three bottles of your excellent medicine she was entirely relieved of the fickleness of the heart, and the rupture has almost entirely discine she was entirely relieved of the ficklenes the heart, and the rupture has almost entirely appeared. She has also had the dropsy, and appeared. She has also had the dropsy, and was very much swollen. We had no idea that she could be benefitted as she had such a complication of diseases. But it has, as strange as it may appear, relieved her of the dropsy. I am aware that this statement is so strange as to statement is so strange as to appear almost like fiction, but it is, nevertheless, sober reality. You tion, but it is, nevertheless, sober reality. Your Sarsaparilla is certainly a valuable medicine, and should be used by every one that is suffering as we have been. If any disbelieve this account, they are at liberty to call at my house and have occular demonstration. Yours &c. WM. Towser, 1 James st.
