The Blind Girl, to her Mother. Mother, they say the stars are bright, And the broad heavens are blue, I dream of them by day and night, And think them all like you. I cannot touch the distant skies.

The stars ne'er speak to me-Yet their sweet images arise, And blend with thoughts of thee. I know not why, but oft I dream

Of the far land of bliss; And when I hear thy voice I deem That heaven is like to this. When my sad heart to thine is pressed My follies all forgiven. Sweet pleasure warms my beating breast, And this I say is heaven. Oh mother, will the God above Forgive my faults like thee ? Will he bestow such care and love On a blind thing like me? Dear mother leave me not alone Go with me when I die-Lead thy blind daughter to the throne. And stay in yonder sky.

> Religion. BY WILLIAM LEGGETT.

Like snow that falls where waters glide, Earth's pleasures fade away; They melt in Time's destroying tide And cold are while they stay ! But joys that from Religion flow, Like stars that gild the night, Amidst the darkest gloom of wo, Smiles forth with sweetest light. Religion's ray no clouds obscure, But o'er the Christian's soul sends its radiance calm and pure Though tempests round it roll; His heart may break with sorrow's stroke But to its latest thrill, Like diamonds shining when they're broke,

Who are they? The toiling millions, the labor ng man and woman, the farmer, the mechanic, the artizan, the inventor, the producer? Far from it These are nature's nobility-God's favorities-the salt of the earth. No matter whether they are high or low in station. rich or poor in pelf, conspicuous or humble in position, they are surely the upper circles" in the order of nature, whatever the fictitious distinctions of society, fashionable or infashionable, decree.

It is not low-it is the highest duty, privilege and leasure, for the great man and the whole-souled woman to earn what they possess, to work their own way through life, to be architects of their own ortunes. Some may rank the classes we have alluded to as only relatively low, and in fact the mid-

dling classes. We insist they are absolutely the very highest. If there is a class of human beings on earth, who may properly be denominated low, it s composed of those who spend without earning, who consume without producing, who dissipate or imagine, he said, the delight, which converts there

the earnings of their fathers or relatives without being or doing any thing in and of themselves. Go on, then, said Dr. P. with your work. Freight We are all mariners on this sea of life

A resolution was passed appropriating ten thou sand dollars for immediately aiding the French Bible Society in circulating the Scriptures in that country. Upon which Dr. Tyng said, he was authorized by a liberal gentleman to pledge \$1000 for this pecific object, payable as soon as the remainder was secured; and he pledged himself to raise \$500 in addition. Rev. Mr. Kirk then pledged \$100, and Rev. Mr. Vail, of Cincinnati, for himself and a few friends at the west, \$1,000. And it may be hoped surely that American patriots will spontaneously respond from different parts of the country, to an amount, for this important object, far greater

than the sum of \$10,000.

Peach Trees.

A writer in the Horticulturist thinks that the shortening-in mode of pruning and the use of ashes, will drive that most fatal malady to peach treesthe yellows-out of the country, if cultivators can be brought to estimate their joint value. He uses wood ashes, either leached or unleached-half a peck of the former or half a bushel of the latter. for a young tree just beginning to bear. The best time of applying it is in October, but it has been found to work admirably as late as June. It is best to prune the peach early, but the writer has seen no bad effect from shortening-in as late as the middle of May, and he advises those who have not performed that operation already, to take knife in hand, and sally forth immediately.
