Indigestion. It has been proved that nearly every disease to which the human frame is subject, originates from impurities of the Blood or Derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the Blood to its natural state. This fact is universally known ; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired Constitution or a fit of sickness rebukes them for the folly of their conduct. Signess reduces them for the folly of their conduct. Still they had some excuse, for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most ef-fectually removed; for *Clickner's Vegetable Purga-tice Pills*, being completely enveloped with A coAr-ING OF PURE WHITE SUGAR, (which is distinct from the kernel) have no taste of medicine, but are as easily swallowed as bits of condu. swallowed as bits of candy.
