LTHOUGH the great fatality of Pulmonary A Diseases, at this time shows that there are A Discusses, at this time shows that there are particular cases that render still too applicable the designation, approbla medicorum—the disgrace of physicians—to this call of discases; and that there are stages in their progress, which having once been reached, recovery is doubtful. Still no one should descript. The writing of the still reaches the stage of the stag despair. The writings of physicians, who have given to these affections particular attention, abound with many recorded cases of recovery when the patient had reached a seeming hopeless stage of the disease; and there is at this time, a remedy prepared in Philadelphia which has met with the most triumphant and cheering success in the most obstinate forms of Throat and Pulmonary Diseases —so as to have obtained the sanction and employment in the practice of many physicians.

Allusion is had to Thompson's Compound Syrup of Tar and Wood Naptha—the preparation of one, who, having given to diseases of the Lungs and their means of cure, the most careful and thorough their means of cure, the most careful and thorough attention, presented to the public this great remedy. The soothing and curative power of TAR has often been observed in severe coughs, and Con sumption. But in the above preparation, beside some of our most valuable vegetable pectorals there is conjoined with it the Wood Naptha, a med icine but lately introduced, but which has been employed with most satisfactory results in England, in Pulmonary Consumption, especially of a Tuberculous form.

Curious case of Consumption.

Dr. Townsend—Dear Sir:—For the last three years I have been afflicted with general debility and nervous consumption of the last stage, and did not expect ever to gain my health at all. After going through a course of medicine under the care of the most distinguished regular physicians and members of the Board of Health of New York and elsewhere and spending the most of my earnings in attempting to regain my health, and after reading in some paper of your Sarsaparilla, I resolved to try it. After using six bottles I found it done me great good, and called to see you at your office; with your advice I kept on, and I do most heartily thank you for your advice. I persevered in taking the Sarsaparilla, and have been able to attend to my usual be

Dr. Townsend: I verily believe that your Sarsaparilla has been the means, through Providence; of parilla has been the means, through Providence, of saving my life. I have for several years had a bad cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsana-rilla but a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results. Your obedient serwant, WM. Russell, 69 Catharine street.
