but o remedy all difficulties in the future, we would recommend the serious consideration of a second reservoir—If under the worst circumstances all agree, that there are 9 or 10 months in which there is a good head of water—two reservoirs can be filled, containing in all some 4 or 5,000,000 gallons of water that will certainly meet any emergency.

Your committee do not urge a second reservoir as a matter of real necessity at this time—because with good and well ordered machinery, the present certainly can be kept full, they mention it, and hope it may be considered favorably, so as to be well supplied in cases of emergency, in seasons of great drought—or in case of the present one giving way.

Respectfully,
GEO. B. KERFOOT,
C. KIEFFER,
ALFRED R. FISHER,
GEO. M. STEINMAN,
H. C. LOCHER,
MARTIN SHREINER,
JOHN DOUGHERTY.

On motion of Geo. M. Steinman, Esq.

Resolved, That the proceedings of this meeting be published in the several newspapers of this city, to give an opportunity to each and every citizen the consideration of the foregoing report, and at a future meeting, when deemed expedient, to adopt or reject the same. Agreed to.

☞ The population of San Francisco, California in July last, was 5000 souls. The Government troops and passengers who have since gone out and are going, will swell the number by June next to 6000. More dry goods have been shipped to that region since the gold fever, than could be made up in clothing in a year, if all the inhabitants were tailors. Ready made clothing has been sent in the same proportion, and of broadcloths sufficient have gone to clothe all in the country for five years to come. The Journal of Commerce advises that the emigrant to California, if he has any money, should take it with him in half dollars, and when there, purchase what he may want (which will be very little in the shape of clothing) to enable him to dig gold in summer.

From the Washington Globe.

Effect of the Gold Region of California on the Sandwich Islands.

We have before us the *Polynesian*, published in Honolulu, from which it would seem that the gold of California is depopulating the neighboring islands of their American and European inhabitants. The *Polynesian* is full of advertisements giving notice of the intention of individuals to emigrate to California, and asking persons having dealings with the emigrating parties to make settlements of accounts. The paper says: "The little city of Honolulu has never before witnessed such an excitement as the gold fever has created. Probably not less than two hundred will leave for California in the course of two months, if passages can be procured. There will many mechanics and good citizens leave," &c.

The paper goes on to urge the people of the island who remain, to make great exertions to raise provisions on the island, as an extraordinary demand will be created for them in California. There is much intercourse already established between the Islands and California, although the distance is drobably greater than between this city and the latter place.

From the Harrisburg Keystone.

HARD TIMES.—A farm of one hundred acres lying upon the river about three miles above this place, with the usual buildings and improvements, were sold last week for $15,500 cash! This we suppose is another evidence of the "downward tendency of things," occasioned by Democratic administrations.

A DROLL BET.—A singular wager was laid on the Presidential election, by a couple of politicians in Connecticut, who agreed that he whose candidate was defeated should saw a cord of wood in the street. The wood was sawed last Monday in presence of a large committee of admiring spectators.

CHINA MISSIONS.—Rev. Mr. Abbott, of the Burmah mission, in a recent letter to the Macedonian, says:—

"Our mission was never more prosperous. The churches in Burmah proper are building larger chapels—they assemble in multitudes, and the Burmese officers say not a word. Converts are multiplying; the demand for preachers and ordained pastors increasing. May God's name be magnified for all the wonders of his grace."

From the Allentown (Pa.,) Democrat.

☞ Hon. SAMUEL A. BRIDGES, representative in Congress from this district, started for Washington on Tuesday morning last. We are happy to state that his stay at home during the recess, has resulted in an almost entire recovery from the illness which he suffered at the seat of government during the last session.

A PUZZLE FOR A FOREIGNER.

Wife, make me some dumplings of dough,
They're better than meal for my cough;
Pray let them be boiled till hot through,
And not till they're heavy or tough.

Now I must be off to the plough,
And the boys when they've had enough;
Must keep the flies off with a bough,
While the old mare drinks at the trough.

ALL RIGHT.—All the electoral votes but four have been received in Washington by Vice President Dallas.

MISSISSIPPI OFFICIAL.—The official vote of Mississippi gives Taylor 25,679; Cass 26,296. Cass' majority, 819.

What annoyed other folks never spoiled his repose;
'Twas the same thing to him whether stocks fe
or rose;
For blast and for mildew he cared not a pin;
His crops never failed, for they grew on the *chin*.

FLORIDA OFFICIAL.—The vote stands. Taylor 4539. Cass 3238. Taylor's majority 1301.

DEATHS.

At her residence in Salisbury township, on Friday, the 15th instant, in the 64th year of her age, MRS. ABIGAIL A., relict of F. DILLER BAKER, Esq.

MRS. BAKER has been for many years a communicant of the Protestant Episcopal Church, and, as her *life* was one of quiet unostentatious piety, manifested among other ways, in meek unfailing submission to the will of God, through years of not a little suffering and affliction, so her *death* was such as to verify, in a striking manner, the declaration, that the "end" of the "upright" is "peace." It was *indeed* a peaceful one—and has been, there is every reason to hope, succeeded by the joys of Paradise. Y.

In this city, on Saturday morning the 17th inst., Adam Leonidas Ruth, aged 24 years, 9 months and 2 days.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases their lives in the hands of Physicians ignorant of this class of maladies.
