The advantage to be derived from having a large stock to select from, ought certainly to be apparent to every one; only two need be mentioned:

1st. The variety to please the taste.

2d. The advantage of purchasing at the lowest prices; for it is certainly evident to every thinking mind, that the larger the business done, the smaller than the profit required. It is so in every branch of trade. The manufacturer sells to the wholesale package dealer trade. The manufacturer sells to the wholesale package dealer; the wholesale package dealer sells to the jobber, and the jobber to the retail country dealer; so that the farmer or the consumer of the article pays at least four profits! Why pay so many profits when you can come directly to head quarters?

Principal Office, 162 Nassau st., N. Y. OLD DR. JACOB TOWNSEND,

Genuine Townsend Sarsaparilla OLD DR. TOWNSEND is now about 70 years of age, and has long been known as the author and discoverer of the Genuine Original Townsend Sursuparilla. Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to the sales when he was a surveyed its worth and known the sales circumscribed to the sales when he was a surveyed its worth and known the sales circumscribed to the sales cir those only who had proved its worth, and known its value. It had reached the ears ofmany, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful HEALING POWER. Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to man-kind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has

it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the old Dr's Sarsaparilla. The 'Sarsaparilla Root, is well known to medical men contains many medical properties and some properties which are inert or uscless, and others which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific progress, known only to those experienced in its manufacture. Moreover, these volatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from anything elec; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it 'Sar-caparilla Extract or Syrup.' But such is not the article known as the GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

Gentlemen—I consider it a duty which I not only owe to you, but 19 my fellow beings, to speak in praise of Dr. Upham's Electuary, a medicine which I think has saved my life, and restored me with Pilez, together with Dyspepsia, and a general disarrangement of the system; I employed different physicians, with no good result, and they at last told me they could do no more for me, and said that I must die. I thus had given up all hopes of ever having my health restored, until I had called to mind the benefits that a nephew of mine in Philadelphia, (Benjamin Percival.) had derived in a severe case of chronic dysentery, by your medicine, that I purchased a box, which, to my surprise, after taking a few doses, I received great relief, and thank God, by continging its use, that I am now restored to perfect health.

Still no one should despair. The writings of physicians, who have given to these affections particular attention, abound with many recorded cases of recovery when the patient had reached a seeming hopeless stage of the disease; and there is at this time, a remedy prepared in Philadelphia which has met with the most triumphant and cheering success in the most most triumphant and cheering success in the most obstinate forms of Throat and Pulmonary Diseases obstinate forms of Throat and Pulmonary Diseases—so as to have obtained the sanction and employment in the practice of many physicians.

The Great English Remedy.

Dr. Townsend's compound Extract Sarsaparilla.

THIS Extract is put up in quark bottles—it is six times cheaper, pleasanter, and warr nated superior to any sold. It cures diseases without vomiting, advantage or debilitating the nation, and ourging, sickening or debilitating the patient, and s particularly adapted for a Spring and Summer

The great beauty and superiority of this Sarsapa-rilla over all other remedies is, while it eradicates disease, it invigorates the body. Consumption cured. It cleanses and strengthens, Consumption can be cured. Bonchitis, consumption, liver complaint, colds, coughs, catarrh, asthma, spitting of blood, soreness in the chest, hectic flush, night sweats, difficult or profuse expectoration and pain in the soreness in the chest, nectic mush, night sweats, difficult or profuse expectoration and pain in the side, &c., have and can be cured.

Probably there never was a remedy that has been

so successful in desperate cases of consumption as this; it cleanses and strengthens the system, and this; it cleaners and strengthens the system, and appears to heal the ulcers on the lungs, and the patients gradually regain their usual health & strength.

Dr. Townsend—Dear Sir:—For the last three years I have been afflicted with general debility and nervous consumption of the last stage, and did not expect ever to gain my health at all. After using six bottles I found it done me great good, and called to see you at your office; with your advice I kept on, and I do most heartily thank you for your advice. I persevered in taking the Sarsaparilla, and have been able to attend to my usual labors for the last four months, and I hope by the hlessings of God and your Sarsaparilla to continue my health. It helped me beyond the expectations of all that knew my case.

Dr. Townsend—I take pleasure in saying for the benefit of those whom it may concern, that my daughter, two years and six months old; was afflicted with general debility and loss of speech. She was given up as past recovery by our family physician; but fortunately I was recommended to try your Sarsaparilla. Before having used one hoatle she recovered her speech and was enabled to walk alone, to the astonishment of all who were acquainted with the circumstance. She is now quite well and in much better health than she has been or 18 months past.

Very few families indeed—in fact we have not heard of one—that used Dr. Townsend's Sarsapparilla in time lost any children the past summer, while those that did not sickened and died. The certificate we publish below is conclusive evidence of its value, and is another instance of its saving the lives of children:

Dr. Townsend—Dear Sir: I had two children cured by your Sarsanarilla of summer complaints.

Dr. Townsond—Dear Sir: I had two children cured by your Sarsaparilla of summer complaint and dysentery; one was only lamonths old and the other three years. They were much reduced, and we expected they would die; they were given up by two respectable physicians. When the doctor informed as that we must lose them, we resolved to try your Sarsaparilla which we heard so much of but had little confidence, there being so much stuff advertised that is worthless; but we are very thankful that we did, for it undoubtedly saved the lives of both. I write this that others may be induced to use it. Yours, John Wilson, ir. ed to use it. Yours, John Wilson, jr. Myrtle-avenue, Hooklyn, September 15, 1847

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to believe she is approaching that critical period, "the turn of life," should neglect to take it, as this is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by taking this medicine. It braces the whole system, renews permanently the natural energies—by removing the permanently the natural energies—by removing the impurities of the body—but so far stimulating the system as to produce a subsequent relaxation which is the case of most medicines taken for se male weakness and disease.

Disease of the Heart, Rupture and Dropsy. New York, July 22, 1846. Dr. Townsend—Dear Sir: My wife has been at licted with a disease of the heart, and with a terriber rupture for over fifteen years, the greater part f the time. She has been troubled with shortness of the time. She has been troubled with shortness of breath, and great fluttering of the heart, which has been very distressing, and has frequently been unable to leave her bod. The rupture was very large and severe. She tried almost every remedy for such cases with but little benefit. When she had taken but three bottles of your excellent medicine she was entirely relieved of the fickleness of the heart, and the rupture has almost entirely disappeared. She has also had the dropsy, and was very much swollen. We had no idea that she could be benefitted as she had such a complication of diseases. But it has, as strange as it may appear, relieved her of the dropsy. I am aware that this statement is so strange as to appear almost like fiction, but it is, nevertheless, sober reality. Your Sarsaparilla is certainly a valuable medicine, and should be used by every one that is suffering as we have been.
