Nothing can be more surprising than its invigorating effects upon the human frame. Persons of all weakness and lassitude from taking it at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a mature, to axhibit certificates of cures' performed, but we can assure the afflicted, that hundreds of cases have been reported to us. CALIFORNIA GOLD. Discovered by Signor D'Alvears Goldometer The Gold Seekers Guide! Or the Secret Art of finding Mines of Gold, Silver, Iron, Lead, Copper, Coal, and other Mineral Riches.

THE first discovery of Gold in California was made by Don Jose D'Alvear, an eminent Spanish Geologist, Chemist and Natural Philospher, by means of a newly invented Magnetic instrument called GOLDOMETER, or GOLD SEEKERS GUIDE

SEEKERS GUIDE!
Signor D'Alvear has just arrived at New York
from the Gold regions of California, by way of
Panama, Chagres, and New Orleans, bringing
with him a very large quantity of Gold ore, valued at nearly one million of Dollars, which he
collected there, long before the existence of the
Gold mines became know to the residents of
California generally. iforma generally.
HISTORY OF THE DISCOVERY.

HISTORY OF THE DISCOVERY.
Signor D'Alvear went out to California nearly
two years ago, in consequence of certain information which he had received of the geological
character of that country, with the firm belief
that vast mines of precious metats would be rethat vast mines of precious metats would be revealed there, upon careful investigation. He was encouraged to this enterprise, also, by his confidence in the powers of a certain Magnetic instrument which he had invented, called the "Goldometer," by whose aid he expected to be directed at once to the "Gold Placers," if any such existed. Nor were his expectation disappointed. His scientific calculations proved to be founded in truth and profound wisdom, and his new instrument, the "Goldometer," fulfilled his highest hopes. In less than two months after new instrument, the "Goldometer," fulfilled his highest hopes. In less than two months after reaching California, he struck upon one of the richest gold mines in that country, upon an obscure branch of the Sacramento river, in a gorge of hills extremely rocky and difficult of access, and seldom visited by the native Californians. and seldom visited by the native Californians. Disguising his object under the pretence of pure-ly scientific research, he obtained the aid of some systemtific research, ne obtained the aid of some lifteen or twenty simple and faithful Indians, and steadily pursued his task, collecting often more than \$3,000 worth of gold in a single day, which he concealed in a deep ravine, without exciting any suspicion whatever, until after the discovery of gold at Capt. Sutter's Mill, when the mountil the supersum properties he aid solvers and Single Singl of gold at Capt. Sutter's Mill, when the mountains were ransacked by gold seekers, and Signor D'Alvear's "gold placer," the richest in all California, was beset with greedy adventurers. It is now found that the real mines or sources of the gold the in the gorges of the mountains, and not in the beds or sands of the rivers. Previous to leaving California, Signor D'Alvear sold his instrument, the Goldometer, a very imperfect one, for \$3,000. The person who purchased it confidently expected to make a handsome fortune by simply finding "gold placers" and selling out the right of digging to the gold workers.

MANUFACTURE OF THE GOLDOMETER AND PUB. OF THE GUIDE.

TER AND PUB. OF THE GUIDE Signer D'Alvear, in compliance with the request of numerous scientific gentlemen, has commenced the manufacture of his new Magnetic Instrument, the Goldometer, which he now offers for sale, in the United States, at the remarkable low price of three dollars each, accompanied by full instructions for use, and a variety of Philosophical hints drawn from the ancients and modern sciences, or the ART OF FINDING MINES OF GOLD, Silver, Platinum, Quicksilver, Coal, Iron, Copper, Lead and other Minoral Riches, the whole being given in a publication called the GOLD SEEKER'S GUIDE!

This new work, and the Goldometer, are both now ready for sale. -The Goldometer, is so simple an instrument, that a child may learn to operate with it in five minutes. It is not affected by climate, moisture, or any other known cause, (except the natuaral magnet,) and will retain its power of pointing out mineral riches in the earth for any number of years. By the aid of the Guide any person may use the instrument with parfect success. may use the instrument with perfect success. FARMERS AND LAND OWNERS.

Farmers and Land owners throughout the United States, who have reason to suspect the existence of any kind of mineral riches upon their lands should avail themselves of this opportunity to test that fact, by the surest of all known tests that the theorem of discovering in all parts. before the abundance of discoveries in all parts. of the country shall have lessened this source of wealth in their estates.

ADVENTURERS TO CALIFORNIA.

Persons going to California cannot make a better investment than by purchasing one of these instruments, which will not only be worth fifty times its value there, to sell again, but will be of inestimable worth to those who go in search of Gold, which has been proved by the most abundant experiments both in California and the United States. TESTIMONIALS. Signor D'Alvear does not deem it necessary

ne age. Nothing but the extreme cheapness of the instrument, and his desire to see it used for the benefit of mankind induces him to dipose of it at the low price for which he offers it. Besides this, his own desire for wealth is nearly satisfied. The following testimonials, in proof of the value of the Goldometer, selected from a great number equally satisfactory, must suffice for the present:

In consequence of the difficulty of finding faithful agents, and of preventing frauds, where articles of this nature are sent out for general sale, Signor D'Alvear has determined to sell none of his works or instruments unless ordered by letters

his works or instruments unlessordered by letters sent directly to him, when the desired publication, or instrument, will be forwarded under his signature and seal, so that all as to its genuineness may be removed.

37 Beware of all imitations of this Instrument which may hereafter appear, as the secret of imparting the gold detecting power is known to no person whatever except the original proprietor.

DRY GOODS. Signor D'Alvear does not deem it necessary to encumber this notice with a long list of testimonials in proof of the value of his Goldometer, and Gold Seeker's Guide. The brilliant results of his labors in California, and the discovery, this very week, of fresh veins of Gold in Virginia, and beds of coal in Rhode Island, by its use, are alone sufficient to stamp it as the greatest discovery of the age. Nothing but the extreme cheapness of the age. Nothing but the extreme cheapness of the server week of the case of his competitors, but, unless every precaution and the utmost prudence is observed, the wholesale dealer is involved in diffi-cuty, and two-thirds, at least, who embark in the credit business, are reduced by bad debts to absolute bankrunter.
