DR. TOWNSEND'S SARSAPARILLA.

The most extraordinary Medicine in the World! Phis Extract is put up in Quart Bottles: It is time, cheaper, pleasanter, and warranted superior to any sold. It cures without comiting purging, sickening or debilitating the Patient.

The great beauty and superiority of this Sarsapa-lla over all other medicines is, that while it eradi-tes the disease, it invigorates the body. It is one of a very best SPRING AND SUMMER MEDICINES ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicate. And on this lies the grand secret of its wonderful success. It has performed within the last two years more than 100,000 cures of severe cases of disease; at test 15,000 were considered incurable. It has saved the lives of more than 10,000 children the past two seasons in the City of New York alone.

to, 000 cases of General Debility and was of Nervous Energy.

Or Townsoud's Sarssparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effects of medicine or indiscretion committed in youth or the excessive indulgence of the pussions, and brought on by physical prostration of the survous system, lassitude, want of subtition, fainting sensations, plemature decay and decline hastening towards that fatal disease Consumption, can be entirely centred by the pleasant remedy. This Sarssparills is far superior to any

Invigorating Cordial. As it remewe and invigorates the system, gives activity to the limbs, and strength to the muscular system as most extraordinary degree.

Great Blessing to Nothers and Children
It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon childbirth ever discovered. It attengthens both the mother and child, prevents pain and disease, increases and enriches the food, those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth. In Costiveness, Piles, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Henorthage, and in regulating the Secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully.

is always sale, and the most delicate use it most successfully.

Notice to the Landies.

Those that imitate Dr. Townsend's Sarsaparilla, have invariably called their stuff a great Remedy for Females &c. &c., and have copied our bills and circulars which relates to the complaints of women, word for word-other men who put up medicine, have, since the great-success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these mixtures, Fills, &c., are injurious to females, as they aggravate-disease, and undermine the constitution. Dr. Townsend's is the only and best remedy for the numerous female complaints—it rarely, if ever fails of effecting a permanent cure. It can be taken by the most delicate females, in any case, or by those expecting to become mothers, with the greatest advantages, as it prepares the system and prevents pain or danger, and strengthens both mother and child. Be careful to get the genuine.

ordinary case of Heaves, and to administer in a dozen cases of cold, catarrh, &c.

At this season, while the horse is shedding his coat his vital energy is much reduced, and he is extremely liable to colds, &c., many cases of incipient Heaves are contracted now, but are suppressed by pasture or warm weather, till they break out in full force in the fall. Thousands of horses can be saved from future unsoundness, if when the first symptons of cold or wheezing is observed, a few doses of the Tattersall's Heave Powders should be administered. They are warranted to wholly eradicate recent heaves at this season.

Great Spring Purifier.—The Heave Powders given in small doses, will be found most useful at this season. They stimulate the skin to cast off the superfluous hair and produce new; they loosen the hide, give a glossy appearance to the coat, pro-
