****************** No. 113 Market St., Philadelphia, WHOLESALE DEALERS DRY GOODS.

HE present mode of doing business (we mean the CREDIT SYSTEM) is now carried to such a extent, that it is not only attended with disaster and vexation to the cash and prompt solvent buyer, by increasing the number of his competitors, but, unless every precaution and the utmost prudence is observed, the wholesale dealer is involved in difficulty, and two-thirds, at least, who make in the credit business, are reduced by bad debts to absolute bankruntev.

less every precaution and the utmost prudence is observed, the wholesale dealer is involved in difficulty, and two-thirds, at least, whosembark in the credit business, are reduced by back debts to absolute bankruptcy.

With this truth before us, we have determined to change our system of business, by selling only for cash, or on very short time for prompt payment; and beg leave to call the attention of purchasers to the advantages we can offer as inducements to examine our stock.

HE subscribers, proprietors of one of the oldest and most extensive China Stores in the United States, have now on hand a very large supply of Common Ware, Granite Ware, China Ware, and Glass Ware, china ill the varieties ever imported, which heav will all in the varieties ever imported, which

they will sell in large or small quantities, wholesale or retail, to suit the wants of the people, at prices to defy competition.

The advantages to be derived from having a large

stock to select from, ought certainly to be apparent to every one; only two need be mentioned:

1st. The variety to please the taste.

2d. The advantage of purchasing at the lowest prices; for it is certainly evident to every thinking mind, that the larger the business done, the smaller the profit required. It is so in every branch of trade. The manufucturer sells to the wholesale package dealer; the wholesale package dealer sells to the jobber, and the jobber to the retail country dealer; so that the farmer or the consumer of the strike pages at least for specific of the article pays at least four profits! Why pay so many profits when you can come directly to head quarters?

tending a love for the fine arts through extending a love for the fine arts throughout the United States, and to give encouragement to Artists beyond that afforded by the patronage of individuals. Its promoters believe that these arts can never attain their due rank in this country (already so far advanced in many of the other elements of civilization) until adequate encouragement be given to the highest efforts of the Painter and Sculptor. For the accomplishment of this object, the Society has adopted the following PLAN:

PLAN:

1. Each subscriber of Five Dollars becomes a member of the Art-Union for one year.

The money thus obtained is applied, first, to the procuring of a large and costly Engraving, from an original American Picture, of which every member receives a copy; and next, to the purchase of Pic-tures, Drawings, or other works of Art, with the funds distributed by lot among the members for that purpose.

Thus, for the sum of Five Dollars, every membe

is sure of receiving a fine Engraving (worth alone the amount of his subscription) and the chance of obtaining a fine original Painting, to be SELECTED BY HIMSELF from any public exhibition in the nited States.
For further particulars call at the Painting Roon of the undersigned, where can be seen a specimen of the engraving, and where subscriptions are received for the same.
