Consumption. There is, perhaps, no disease with which our country is affected, which sweeps off annually so many victims as that fell destroyer of the human race—Consumerron. much better than the other Lancaster tailors and yet sell far cheaper than the rest of the trade! His an unhealthy state of the STOMACH, LIVER, OR BOWELS, (which have been justly styled the storehouses of diseases) these Bitters have proved a certain and speedy remedy. Dr. R. will be glad to refer any invalids who may call upon him (he having had permission so to do.) to persons pronounced incurable by their physicians, who have visited him from various parts of the United States, and also many distinguished persons from the British Provinces, who have been cured by using his celebrated medicine.

The peculiar character of these Bitters is most striking, their operation being more or less powerful, according to the violence of the disease. When used in appropriate quantity, in cases of slight derangements of the stomach and bowels, caused by costiveness, or a slight bilious difficulty and the like, where nature needs assistance to prevent more serious consequences, they will scarcely be felt; on the contrary, in obstinate cases they operate more powerful, cansing two or three evacuations daily, until the circulating fluid becomes purified. This accomplished, they act on the system in connection with our food, each part receiving mutual assistance until the constitution is restored to a state of health. This medicine is of ing mutual assistance until the constitution is restored to a state of health. This medicine is of such a nature that it may be taken any length o such a nature that it may be taken any length of time, by invalids of any age, without injuring the system or exposing it to take cold. They preclude the necessity in most cases, of using pills, which the public are advised to take in large quantities, by some practitioners, which serve only to debiliate the patient and doom him to be a pill-swallower
