### Gratuitous Advertising.

No class of the community is more severely taxed, not for the public, but for individual good than newspaper publishers. The N.Y. Commercia sets forth the case in the following article-every word of which is literally true :

Every body knows, or ought to know, that the publishing business is one of large expense-em-ploying a great number of persons and an extensive apital, that every paragraph set up costs a certain sum of money in the composition, or setting up of the type, and occupies a certain space which ought to yield its proportion of income to the proprietors. Every body knows, too, that the main source of this income is the portion of the sheet devoted to lvertisements, and that to ask a gratuitous inserion of an advertisement, or a communication or an editorial notice, to serve in the place of one, is literally asking the publisher to incur an expense of one dollar or more without making him a farthher to incur an expense g in return It is to all intents and purposes asking him to

If his pretensions were fairly stated, they include, of course, his vote in favor of withdrawing our armies from Mexico, at the most perilous period of the War-his vote for relinquishing all claim against Mexico to indemnity for expense and for retroceding to Mexico that portion of Texas Juing between the Nueces and the Rio Grande ! Back ed by such an endorsement, Mr. COLLAMER's title was established-and then, it would have betrayed a most shameful neglect of modest merit not to have conferred another fat office upon Mr. HUDBON the mover of these patriotic resolutions!

We should be equally delighted to see the recommendations of Mr. HENRY FITZ WARBEN, of whom, unless most wickedly traduced, it could well be certified, that he had allowed his Conscience an irrecoverable stretch in the distribution of the Whig Corruption Fund in Iowa, not to speak of much other wear and tear of reputation-and who is now contributing so essentially, by his amiable and modest conduct as Assistant Post Master General, to fashion the TAYLOR administration after the
