HARLES B. WILLIAMS respectfully informs on the citizens of Lancaster, and strangers who may tarry here until their boards grow, that he has opened a Shaving and Hair Cutting Saloon, in North Queen Street, opposite Kauffman's Tavern, where he intends prosecuting the Tonsorial Business, in its varied branches. He will shave you as clean as a City Broker, and cut your hair to suit the cut of your head and the cut of your Phiz.
Then the whole object and desire is, to improve the appearance of the human race. From long experience he flatters himself that he can go thro' all the ramifications of the Tonsorial Department with such an infinite degree of skill, as to meet the entire approbation of those who submit their Chins to the keen ordeal of his Razor.

TO THE PUBLIC. The lands embraced in the above proclamation are located principally on and adjacent to the Mississippi and St. Croix Rivers. Those designated as mineral are extremely valuable; because in addition to the copper and other ores found in them, they are well watered, and have ready access to market sither to the South by the Mississippi. market, either to the South, by the Mississippi river, or to the East, by the way of the lakes, and the several lines of communication that connect therewith.

Valuable timber and all other necessary requisites for building and smelting, are found in great abundance, and of the finest quality. The climate is healthy and pleasant—the cold being rarely more intense than in the northern part of New York—and many of the lands are exceedingly fertile, producing all the grains and vegetables that can be raised in Massachusetts or northern New York.

Maps showing the localities of the mines, and other valuable information relation thereto decimal other valuable information relating thereto, derived from the geological survey, &c., which cannot be embraced in this brief notice, will be prepared as

In some of the mines now worked, copper is found almost pure; and, in fact, most of the native copper and ores yield a greater per centage than any other yet discovered in the world. Silver is also tound in considerable quantities.

All the necessary materials for the construction of furnaces, and fuel of smelting, are found in abundance in the immediate neighborhood of the mineral.

The climate in winter, though cold, does not interrupt the operations of the miners; in fact, that season is considered the most favorable for their operations.

The proximity of these mineral lands to the shore of Lake Superior, on which are several safe and excellent harbors, and the water communication therefrom, by the Sault Ste.
