When the Lahenster Gas Works shall be in operation, we recommend purchasers of lamps and fixtures, to the store of Messrs. ARCHER & WAR-MRH, 110 Chesnut street, Philadelphia-whose orkmanship is unrivalled.

We have had lately several beautiful days and glorious evenings. Judging from the number of ladies and gentlemen promenading our streets, visiting the Ice Cream Saloons, discussing the merits of ripe Strawberries, and the beautiful proportion and elegant fit of Jos. Gormly's New Style of Summer Clothing, and wondering how it is possible the such senior goods as the discussion. that such superior goods can be afforded a such remarkably low prices. But the reason is plain, viz: the supply equals the demand—and the demand equals the supply. The demand being so great, he is satisfied with a very small profit. To supply this demand he employs a vast number of workmen who replenish his stock sufficiently, to whether the property of the large property of supplying the property of the large property of supplying the suppl meet the wants of the large number of purchasers who daily call at this truly fashionable and favourite store called Lancaster Hall of Fashion, situated in North Queen street, three doors from Orange, west side, Lancaster, Pa.

Important Testimony from High Authority!

From the Editor of the N. Y. Mirror, Aug. 9, 1848. A PERFECT CURE AND No MISTARE.-We are about to write a voluntary statement of a cure re-cently effected by Wistar's Balsam of Wild Cherry, which the editor of this paper is willing to give under his own signature. We make it pro bono publico, as we have never seen the proprietor of this invaluable medicine, and know nothing at all about him. About four weeks since, one of the compositors in this office was suffering so badly from a cough that he was unable to sleep nights, and too weak to stand at his case. He became very pale and thin, and gave symptoms of falling a vi tim to quick consumption. We recommended to him various remedies which had no effect. Finally we gave him one bottle of WISTAR'S BALSAM
OF WILD CHERRY, which we obtained of the
Messrs. Sands of this city; it afforded him immediate relief, and he is now a well man, gaining in adde vettey, and he is now a well man gaining in flesh daily, with a ruddy complexion, and not the slightest symptom of a cough. These are facts, and further particulars may be learned at this office. We should add that the cough in the above case was accompanied by profuse spitting of blood.

LANCASTER MUSEUM.—Great preparations are making at this popular establishment in the way of alterations, and beautifying the place. A new saloon will shortly be completed, which will surpass any thing of the kind ever attempted in this city. It is to be well ventilated. Seats to be arranged with backs, and cushioned for Lafties—and a very select and talented company are engaged, and will perform a popular drama on the opening night. We hope they may succeed.

This complimentary notice, from a gentleman of the business in the most celebrated Marble, es-

opinion respecting your valuable Bitters, being almost a stranger to you.

I have been acquainted with them for more than five years, and have used them as a family medicine almost solely, to the exclusion of other medi-

They have been serviceable to my children in various complaints incident to them. The last season I found them highly useful in an instance of measles, of the worst kind. Our three children were attacked with this violent disease about the same time, and two of them were very sick. We same time, and two of them were very sick. We did not have a physician, but I administered the Bitters freely, which had the speedy effect to bring out the measles, and although the fever was very high which attended them, they did well.

From this successful experiment of their use in this and other cutaneous diseases with which our family have been afflicted, I am prepared cheerfully to recommend them as a safe family medicine. In the spring expect of the year, in case of insuling

CHAMBERSBURG, April 28, 1849.

MR. HENRY E. LEMAN:—Your favor of the 25th inst., is at hand, and in reply say that the Grindstones we run with Wortz's wheel are from 5 to 6 feet high, 9 to 12 inches thick, weighing from 3 to non, Berks and Chester. We have a number of

stones we run with Wortz's wheel are from 5 to 6 feet high, 9 to 12 inches thick, weighing from 3 to 5000 lbs. We formerly used an undershot wheel 12 feet wide and 14 feet high. Our head in an ordinary stage of the water is about 3 feet, 3 or 4 inches. Sometimes much less than that. With the old wheel we run two grindstones. In the same place we have now four of Wortz's wheels (3 36 inches). place we have now four of Wortz's wheels (3 36 and 1 40 inches,) running four grindstones and one trip hammer weighing about 80 lbs. with less water and doing more work in the same time. In regard to the quality of the wheel for the purpose of grinding, it is far superior to any I have ever used or seen used, and for a low head I believe it is the or seen used, and for a low head I believe it is the best wheel in use—during the whole winter (which has been unusually cold) we have not been affected at all with the ice, and in high water at a stage which would stop the old wheel entirely, we now find no inconvenience from back water. Any further information on the subject I will be happy to communicate, or it you could make it convenient to visit Chambersburg I will take great pleasure in showing you the wheels.
