VINAIGRE AROMATIQUE, COSMETIQUE, E ANTI-METHITIQUE DE BULLY. 7 THE highly sanitory, balsamic, and tonic proper-ties of this Vinegar render it far superior-to Cologne Water for the ordinary purposes of the toilet and the bath, surpassing the latter in its pertume and cheapness, and in its greater efficacy for the promotion of cleanliness and health. This article has been known and extensively used

in Europe for very many years, where it has, to a considerable extent, superseded the use of Cologne Water. The subscriber feels assured that it needs only to be made known in this country to ensure its equally general adoption. It has obtained the approval of several eminent physicians of this city, to whose notice it has been submitted.

It prevents and removes pimples, tetter, and asperity of the skin; it refreshes and whitens the asperity of the skin; it refreshes and whitens the skin, rendering it soft and smooth. It corrects the clammy and bitter taste of the mouth, imparting a fresh and pleasant breath. It cleanses and whitens the teeth, and hardens the gums. Friction with the Wildows premates nersuiration and assuage this Vinegar promotes perspiration and assuage rheumatic pains. It allays headache by application to the temples. It is effectual in removing inflam-

mation of the cyclids, and in strengthening the cyes. Applied to a burn it prevents soreness. It possesses many other valuable qualities, which are detailed at large in the printed wrappers accompanying each bottle.

The subscriber having, during a recent visit to Paris, obtained the original recipe for this invalua-ble preparation, now offers it to the American public, with a perfect confidence that it will be found in every respect equal to the article prepared by the original inventor.

THIS is a safety Bridle Bit invented and secured by Mr. Henry Seitz, of Marietta, Pa. This Bit is expected to supersede eventually all others, either for riding or driving, combining, as it does, the common snattle, so arranged with the pulley, as to give any person perfect power over the most vicious or frightened horse. It obviates the objections made to the severe bits now in use, which from their painful action, often make a spirited horse rear, kick and try to run away. This bit is pleasant in its action on the mouth, causing no pain whatever, and has the r-quisite power when wanted—no horse having been found able to resist it.

The operation is as follows: The rein is hooked firmly to the saddle at A, passing through the loop C, into the bit over the roller at B, and securing it fast to the ring D, which prevents it from drawing back and threat the check

C, into the bit over the roller at B, and securing it fast to the ring D, which prevents it from drawing back and forms the check rem now in use, and to which the driving reins are buckled and pass back to the driver. For horseback, the loops and rings are dispensed with, the rein being continuous, forming two reins, one of which is thrown over the saddle horn or strapped to the pummel, and the other to the rider's hand—both reins can pass throther ings of a martingale. For ladies it is particularly recommended on account of its safety and power, as a horse is by no means able to throw his head sufficiently low to kick. For double-harness head sufficiently low to kick. For double-harness the reins should pass from the 1st horse over to the bit of the 2nd, through the bit and back to the the saddle piece at G, of the 1st horse—platting the reins as they cross each other between the Horses have been successfully driven with this

bit, that were set aside as beyond management as harness horses with ordinary severe bits, from the habit or invariable practice of running away in spite of the utmost endeavors of their driver—now they are good and serviceable horses.

The River manufactured only by HALDEMAN Bits are manufactured only by HALDEMAN & SEITZ, of Marietta, Pa., who will attend to all orders concerning the sale of the same. The patent right of this invention has been secured, and

The undersigned is the Agent for Lancaster county, of the above Bit, and feels warranted in recommending it as a valuable invention. He would refer to the following persons, who have it in use: John Forry, Manor; Henry Spiellman, Jr., Strasburg; Jacob Stahl, Dr. J. New York, April 28, 1847.

Da. Townskyn.—I verily believe your Sarasparils has been the means, through Providence, of saving my life. I have for several years had a bad Gough. It became worse and worse. At last I raised large quantities of thou, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarasparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood and my cough has left me. You can well imagine that I sin thankful for these results. Your obedient servant,

This is only one of more than four thousand cases of Rheumatism that Dr. Townsend's Saranparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues.

Nothing can be more surprising than its invigorating effects upon the human frame. Persons of all weakness and lassitude from taking it at once become robust and full of energy under its influence. It immediately counteracts the survelessmess of the founds frame, which is the great cause of Barranness. It will not be expected of us, in cases of so delicate a nature, the afflicted, that hundreds of cases have been respected to us. Thousands of cases where families have been without children, after using a few hottles of this invaluable medicine, have been blessed with fibre, healthy offspring. It has been expressly prepared in reference to female complaints. No famile who has reason to suppose she is approaching that critical period.
