ATTEST:

J. BOWMAN, for Proth y. Prothonograp's Office, Lancaster, June 26, 1849.

Cholera Brandy.

A Cure and Preventative for the Cholera. THE above named medicine was discovered in 1832, at the Hospital in the city of Berlin, by C. W. Hufeland, the Royal President of the yal Medical Society, and I now introduce this allible, medicine for the public safety from the by appointing J. RUGGLES, of BROAD STREET above Vine, my sole and exclusive Agent, where the genuine medicine may always be found, and at n ther place. It is the only preventative that the ublic can rely upon with safety. It has saved the ves of millions of people in the city of Berlin and its vicinity. I have not only used this preparation in my practice in Europe, but in America, also, and always found the same beneficial effects result-

It can be had of J. Ruggles, Broad St., above Vine, corner of Pearl, wholesale and retail.

CAUTION.—Avoid all sweet nostrums that are offered for the Cholera. SOLOMON HEINE, M. D. Philadelphia, June 26

Litiz Hotel.

THE Moravian Society have re-built and en treat during the summer months, to the advantages

The village of Litiz is situated in the midst of a most delightful region of country, eight miles distant from the city of Lancaster, with which place it has a ready and regular DAILY communication, by means of Stages over a good turnpike road. Persons leaving Washington City, Baltimore or Philadelphia, in the morning reach here the same day, as an Accommodation Coach leaves Lancaster for Litiz, at 4 o'clock P. M., upon the arrival of the

Cars.

The Female Seminary, so long and justly celebrated abroad, and now under the charge of the Rev. E. FREAUFF, as also the Boys' Academy, under the charge of Mr. John Beck, so long and favora-bly known throughout the United States, give this place a degree of peculiar interest.

The Hotel occupied by us, has been entirely and newly furnished, and is sufficiently capacious to accommodate a large number of visitors, with private parlors and all the comforts of home. The walks and scenery about the village are delightful.

the Treasurer and the vouchers for the same, and find that the same are correct

REPORT OF THE COMMITTEE OF FINANCE In obedience to the duty devolved upon the Committee of Finan submitting an annual report for the consideration and approval Councils, of the estimated receipts and expenditures for City purpose

the undersigned Committee of the present fiscal year, in discharge such duty, present the following statement as an embodiment of their views. The receipts into the Treasury are estimated to be as follows: Tax of 34 cents in every \$100 on the present year's valuation of real and personal property, being \$2,779,000,

will amount to the sum of \$9.448 60, Which sum in their opinion should be expended as follows. viz: To pay interest on permanent loan of \$38,876 39 \$2,332 52 Salaries, Grading, paving and repair of sts., (as hereinafter restricted) 3,000 00 350 00 Fir e Companies 472 43 40 11 ½ Collectors per centage, 450 00 Watchmen, 1793 59 Contingencies,

\$9,448 60 The sum set apart for street purposes to be appropriated as follows For each of the four wards (excluding the main streets. \$2000 00. below named), \$500 For each of the main streets, viz: North Queen, South

Queen, East King and West King, if required in the opinion of the Street Committee, \$200 800.00 Contingent Street Fund to be applied as Councils may direct during the year-

200 00 \$3000 00

The rate of taxation is the same as last year. The lighting of the Streets in the City, is a subject that has been ong agitated by the citizens through petitions to Councils and otherwise, and with a majority doubtless is "a consummation devoutly wished for:" the Committee though favorable to the project have made no special appropriation therefor, conceiving the Contingent Fund ample to meet its ordinary demands and enable Councils, should they feel disposed, to contract for a supply of Gas with the Company that will be formed in the City, under a recent charter from the legislature. As Commissioners of the Sinking Fund, your Committee make the

following exhibit: Amount of Sinking Fund to February 18, 1849 \$5,982 452 Purchase money of lot sold to County Commissioners, 500 00

\$6,482 45 Of this amount there is invested in City 6 pr. cent. loan \$6,457 06 Included in the whole fund of \$6,482 452 is an amount of Certificates of City Loan

withdrawn from circulation and unavailable of 46 82 Leaving available funds \$6,435 631

And being an excess of investment over available funds of \$21 421 The accumulation of this fund being in arithmetical progression, it not diverted from its legitimate ends, will in the course of 15 years. hence accomplish the entire absorption of the city debt; and the interest appropriation herein provided, together with the items yearly

accruing to the present fund, can then be converted in a new fund for ie reduction of the Water debt. In conclusion your Committee would recommend the adoption of he following resolutions, to wit: Resolved, By the Select and Common Councils of the City of Lan-

caster, that a Tax of \$9,448 60 be raised for the current year, and that

the same be assessed and levied on all property made taxable for City Resolved, That the amount of Taxes as well as other receipts into the Treasury not otherwise appropriated be applied to the objects and in the proportions stated in the foregoing report and no other, unless there should be a balance of appropriations unexpended, then it may be applied under the direction of the Committee of Finance and Accounts to reduce the City debt, or to such other objects as Councils may direct.

All of which is respectfully submitted, JOHN WEIDLER. J. B. AMWAKE. JOHN HAMILTON. BONOM SAMSON.

LANCASTER, May 1, 1849. 1849, May 1.-In Select Council, read, considered and adopted. JAMES BLACK, Clerk. Same day-In Common Council, read, considered and concurred in

JAMES C. CARPENTER, Clerk .. ANNUAL REPORT OF WATER COMMITTEE. To the Select and Common Councils of the City of Lancaster: The Water Committee in making their annual report, take pleasure in stating, that however discouraging the condition of the Works may have been, for a considerable time during the past year, the present arrangement of employing an Engineer and Machinist, presents a fair

prospect, with the improvements hereinafter suggested, of furnishing an abundant and wholesome supply of water to the citizens in future. The financial condition of the Water Works, Councils will observe, is very encouraging, so much so, that before the expiration of ten years, the receipts from Water Rents will pay the interest of the Water debt; including the necessary expenditures that will be required to extend the works in its different departments : and in that event the citizens may be gradually relieved from a protection tax or a reduction of the Water Rents, as Councils may determine, and the City be uom-

inally freed from a debt now amounting to \$147,561 321. Your Committee while they allude with pleasure to the financial prosperity of the Works, are of the opinion that some thing is necessary to be done without delay, to insure a more constant supply of water, as well as render its condition at certain seasons more palatable; in view of this—they earnestly recommend to Councils, the construct tion of an additional Reservoir, the increasing demand makes it imperative, and the duty of furnishing the citizens with pure and wholesome water, imposes upon councils a moral obligation no longer to delay action The present Reservoir is insufficient in capacity, the water is con-

sumed before it has time to precipitate and at seasons when the water is impure in the Conestogo, this impurity is a matter of general complaint by the citizens. A Reservoir of at least double the capacity of the present, would, in the opinion of your Committee, afford ample time for the impurities in the water, to become precipitated before being used. They are satisfied of this fact, from the experience of former years—when the consump tion was one half less than at the present time, and at that period the

water at no season of the year was objectionable on account of its Your Committee feel warranted in the opinion, that with an additional Reservoir of sufficient capacity, there could be no possible doubt about insuring a constant supply of water, at all times to the citizens. The condition of the Conestogo is such, that at least three fourths of the year the pumps could be employed on an average of twelve hours per day, and during this portion of the year there could be no difficulty in filling and keeping full reservoirs of any capacity, and with a full supply of water therein during the season of plenty, the supply could be continued during the dry season, by pumping one or two hours per

day, and under the lowest and most unfavorable condition of the Conestogo, at least four hours effective pumping can be made per day. Your Committee have appointed an Engineer and Machinist agreea bly to an ordinance passed on the 15th day of February last, and feel pleased in stating that they have already experienced the beneficial effects of such appointment, in so much that no leaks in the ascending main pipes have occurred since he has entered upon his duties, and tha the renovation in the water house, with all other matter submitted to his charge, add to his credit and prove the efficiency of the person selected,-which in connection with the present experienced Superintendent, induces us to anticipate a prosperous and successful manage-

ment of the Water Works during the current year. Your Committee, after having taken into consideration the probable expenses of the Water Works, propose the following appropriations, and submit the following statement:

Interest on \$147,561 321, the whole amount of the City debt for water purposes, including a proportionable amount of the special fund to pay interest, \$8454 00 500.00 Salaries Miscellaneous expenses, 346 UO Water Rent Collectors per centage at 4 per cent 340 96 126m oo Receipts for the year 1849, we estimate as tollows For Water Rent in the City 100 a 60 For Water Rent from the State, 700 90 City's share of income of City Mill 400.00 3100 00 Leaving to be raised by Tax 7500 00

\$ 2600 50 The Committee submit the following resolutions:

Resolved, by the Select and Common Councils of the city of Lancaster, in Councils sembled, That a tax of Seven Thousand Five Hundred Dollars by raised the cutent year, and that the same be assessed and collected in the manner prescribed. ved, That the amount of taxes as well as other receip s paid into the factor Misobed, That the amount of taxes as were as other receip s paid into the own of the City Treasurer for water purposes, be appropriated and applied to the own stated in the foregoing report, to be drawn by the warrant of the Mayor, all being first examined and approved by a quorum of the Water Committee.

Resolved, That the surplus unexpended of the Miscellaneous Appropriation other funds accumulating in the Treasury for water purposes drying the curry year, be applied by resolution of Councils to laying pipes, or for such other purposes must beneficial to the Water Works.

s most beneficial to the Water Works. Whole amount of pipes laid down: 4429 feet 12 inch calibre; 1242 ft. 10 incg ; 11,530 ft. 8 inch do; 3998 ft. 6 inch do; 8752 ft. 4 inch do; 1000 ft. 2 incg with a balance of \$3,391 95, being a part of the sum of \$4000 specifically appropriated and set apart for the purpose of meeting the interest falling due between the first day of February and the time the new duplicates are placed in the hands of GEO. M. STEINMAN, M. CARPENTER. he Collectors; leaving a deficit of \$608 05 of the said fund to be supplied out of CERISTIAN ZECHER HENRY CARPENTER,

J. M. HARMANY. 1849, May 1.—In Select Council, read, considered and adopted JAMES BLACK, Clerk. Same day-In C. C., read considered and consurred in. JAMES C. LESSESSER, Clerk.
