JOHN C. BAKER'S

CD DR. TOWNSEND is now about 70 years of age, and has long been known as the author and discoverer of the Genuine Original Townsend Sarsoparilla. Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, never-theless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful HEALING POWER. Knowing, many years ago, that he had, by his Through who have not the paintin into thing and ex-cruciating pangs of this disease shooting through their jaws with most tormenting perseverance, and, as is often the case, have received but little sympathy from friends on such occasions, will no doubt be much pleased to know of a remedy that will never fail to quiet forever the university of order. This proved is the CLONE

sore diseases, and saved from death, proclaimed its excellence and wonderful HEALING POWER. Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to man-kind when the means would be furnished to bring it into universal notice, when its incestimable virtues would be known and appreciated. This time has come, the means are supplied; this Grand and Unequalled Preparation is manufactured on the lar-gest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration. Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better; because it is prepäred on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the old Dr's Sarsaparilla. The Sarsaparilla Root, is well known to medical men contains many medical properties and some properties which are inert or useless, and others which it retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are-so volatile, that they ontirely evap-orate and are lost in the preparation, if they are not preserved by a scientific progress, known only to those experienced in its manufacture. 9meow-51 preserved by a scientific progress, known only to those experienced in its manufacture. Moreover, these volatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it all its value.

Its value. Any person can boil or stew the root till they get a dark colored liquid, which is more from the col-oring matter in the root than from anything else; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it "Sar-saparilla Extract or Syrup." But such is not the article known as the

GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

SARSAPARILLA. This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, every-thing capable of becoming acid or of fermenation, is cattacted \geq rejected; then every particle or medical virtue is secured in a pure and concentra-ted form; and thus it is rendered incapable of los-ing any of its valuable and healing properties. Pro-pared in this way, it is made the most powerful agent in the Queen Street, where he will keep constantly on hand, and manufacture to order, every description of work in his line of business.
