OLD DR. JACOB TOWNSEND. THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla OLD DR. TOWNSEND is now about 70 years of age, and has long been known as the author and discoverer of the Genuine Original Townsend Sarsaparilla. Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, never theless, as those persons who had been liealed of sore diseases, and saved from death, proclaimed its excellence and wonderful HEALING POWER. Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, the means appreciated, this Canadana come, the means are supplied; this Grand and Unequalled Preparation is manufactured on the la Unequalted Preparation is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the nanufacture of the Unlike young S. P. Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from anything else; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it "Sar-saparilla Extract or Syrup." SARSAPARILLA This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, everything capable of becoming acid or of fermentation, is extracted 5 rejected; then every particle or medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuella and health greateries. Per ing any of its valuable and healing properties. Prepared in this way, it is made the most powerful

CURE OF INNUMERABLE DISEASES. on every side in its lavor by men, women, and children. We find it doing wonders in the cure of Consumption, Dyspepsia, and Liver Complaint, and in Rheumatism, Scrofula, Piles, Costiveness, all Cutaneous Eruptions, Pimples, Blotches, and all affections arising from arising from IMPURITY OF THE BLOOD.

possesses a marvelous efficacy in all complaints ing from Indigestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flashes over the body. It has not its equal in Colds and Coughs; and promotes easy expectoration and gentle perspiration, relaxing strictures of the lungs, throat, and every other part. But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of FEMALE COMPLAINTS.

FEMALE COMPLAINTS. ;

It works wonders in cases of Flour Albus or Whites, Falling of the Womb, Obstructed, Suppressed, or Painful Menses, Irregularity of the menstrual periods, and the like, and it is effectual in curing all the forms of Kidney Disease.

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of Nervous Diseases and Debility, and thus prevents or relieves a great variety of other maladies, as Spinal Irrita-tion, Neuralgia, St. Vitus' Dance, Swooning, Ep-ileptic Fits, Convulsions, &c.

It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good diges-tion, relieves the bowels of torpor and constipation, allays inflammation, purifies the skin, equalizes the circulation of the blood, producing gentle warmth equally over all parts of the body, and the insensible perspiration; relaxes all strictures and tightness, removes all obstructions, and invigorates the entire nervous system. Is not this then the medicine you preseminantly need.

cine you pre-eminently need?

But can any of these things be said of S. P. Townsend's inferior article? This young man's liquid COMPARED WITH THE OLD DR'S. because of one Grand Fact, that the one is incapaf Deterioration, and NEVER SPOILS,

while the other does; souring, fermenting, and blowing the bottles containing it into fragments; the sour, acid liquid exploding, and damaging other goods! Must not this horrible compound be poisonous to the system? What! put acid into a system already diseased with acid? What causes byspepsia but acid? Do we not all know that when food sours in our stomachs, what mischief it produces? flatulence, heart-burn, palpitation of the heart, liver complaint, diurrhea, dysentary, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces but an actic unnor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid, which insinutes itself between the joints and elsowhere insite. ates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which affect human nature.

Now is it not horrible to make and sell, and infinitely were to use this nitely worse to use this

Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific progress, known only to those experienced in its manufacture. From the National Era. THOUGHTS OF HEAVEN.

No sickness there, No weary wasting of the frame away, No fearful shrinking from the midnight air, No dread of summer's bright and fervid ray No hidden grief,
No wild and cheerless vision of despair; o vain petition for a swift relief, No tearful eye, no broken hearts are there.

Care has no home Within that realm of ceaseless praise and song, Its tossing billows break and melt in foam,
Far from the mansions of the spirit throng. The storm's black wing Is never spread athwart celestial skies

Its wailing blends not with the voice of spring,
As some too tender flow'ret fades and dies. No night distils Its chilling dews upon the tender frame; No moon is needed there! the light, which fills That land of glory, from its Maker came.

No parted friends O'er mournful recollections have to weep; No bed of death enduring love attends,

To watch the coming of a pulseless sleep

No blasted flower Or withered bud celestial gardens know No scorching blast, or fierce descending sho Scatters destruction like a ruthless foe! No battle word Startles the sacred host with fear and dread

The song of peace Creation's morning heard, Is sung wherever angel-minstrels tread! Let us depart,

If home like this await the weary soul, Look up, thou stricken one; thy wounded heart Shall bleed no more at sorrow's stern control.

A Sad Disappointment. The latest and most ludicrous evidence of the truth of the adage that "there is many a slip be-

tween the cup and the lip," occurred at Cincinnati some days ago. A gentleman had been fortunate enough not only to win the affections of a lady and prevail on her to name the happy day, but had the city to see the day arrive. Full of love, fervor and anticipations of bliss, he repaired-with his license and minister's fee snugly laid away in his coat pocket—to a barber's for the purpose of being enabled to present himself with a face as smooth as his heart was full to his expected bride. Unfortunately for him, the operation of shaving is one which cannot be properly performed without the removal of coat and cravat, both of which he carefully hung up in the shop. The operation was finished, and having, in the most serene state of mind, approached to resume the articles of which he had divested himself, he was amazed to find that his coat was gone. It was a most grievous predicament, and his manner proved that it was so; for ne raved and stormed, and hunted and threatened, n a most violent manner—but the coat was not on old establishment was compelled to fail; and at forthcoming; and with the coat the license had departed—not to mention the fee that was to end than \$26,900, not one quarter part of which was and crown the ceremony. There was no help for it. The hour appointed had arrived; and to the amazement of the company, the unfortunate bride.

The hour appointed had arrived; and to the amazement of the company, the unfortunate bride. groom presented himself to his astonished Dulcinea n his shirt sleeves, and in a broken and incoherent speech, explained his dire misfortune. Very fortunately for him, the lady was both considerate and kind; and the match was postponed until another license—and another coat and fee—could be pro-cured, to finish it in a proper manner.—N.
