Cholera Brandy.

A Cure and Preventative for the Cholera.

THE above named medicine was discovered THE above named medicine was discovered in 1832, at the Hospital in the city of Berlin, by Dr. C. W. Hufeland, the Royal President of the Royal Medical Society, and I now introduce this infallible medicine for the public safety from the scourge that now threatens our city and vicinity, by appointing J. RUGGLES, of BROAD STREET, above Vine, my sole and exclusive Agent, where the genuine medicine may always be found, and at no other place. It is the only preventative that the public can rely upon with safety. It has saved the lives of millions of people in the city of Berlin and its vicinity. I have not only used this preparation in my practice in Europe, but in America, also, and always found the same beneficial effects result-ing.

ROUSSEL'S VINAIGRE AROMATIQUE, COSMETIQUE, ET ANTI-METHITIQUE DE BULLY.

THE highly sanitory, balsamic, and tonic proper-ties of this Vinegar render it far superior to Cologne Water for the ordinary purposes of the toilet and the bath, surpassing the latter in its per-fume and cheapness, and in its greater efficacy for the promotion of cleanliness and health.

This article has been known and extensively used In Europe for very many years, where it has, to a considerable extent, superseded the use of Cologne Water. The subscriber feels assured that it needs only to be made known in this country to ensure its equally general adoption. It has obtained the approval of several eminent physicians of this city, to whose notice it has been submitted.

It prevents and removes pimples, tetter, and asperity of the skin; it réfreshes and whitens the skin, rendering it soft and smooth. It corrects the clanmy and bitter taste of the mouth, imparting a fresh and pleasant breath. It cleanses and whitens the teeth, and hardens the gums. Friction with this Vinegar promotes perspiration and assuage rheumatic pains. It allays headache by application to the temples. It is effectual in removing inflam-uation of the availate and in temporation for mation of the eyelids, and in strengthening the eyes. Applied to a burn it prevents soreness. It possesses many other valuable qualities, which are detailed detailed at large in the printed wrappers accom-panying each bottle. The subscriber having, during a recent visit to

THIS is a safety Bridle Bit invented and secured by Mr. Henry Seitz, of Marietta, Pa. This Bit is expected to supersede eventually all others, either for riding or driving, combining, as it does, the common snaffle, so arranged with the pulley, the common shaffle, so arranged with the pulley, as to give any person perfect power over the most vicious or frightened horse. It obviates the objec-tions made to the severe bits now in use, which from their painful action, often make a spirited horse rear, kick and try to run away. This bit is pleasant in its action on the mouth, causing no pain whatever, and has the r:quisite power when wanted —no horse having been found able to resist it. The operation is as follows: The rein is hooked frunk to the saddle at A. presime through the loor Remember, it matters not as to the color of the dress or drapery, or whether the day be clear or cloudy, the Extra Sun-Beam process is always cer-tain, and the pictures taken by it are warranted to be proof against water, air or dampness of any kind, and will stand, the ages without fading in the least—a truthfulness farely if ever to be found in the old process. firmly to the saddle at A_{j} passing through the loop C_j into the bit over the roller at B, and securing i fast to the ring D, which prevents it from drawing back and forms the check rein now in use, and to which the distinct the same security of the same security of the same security of the same security is the same security of the same 1y-3 back and forms the check rein now in use, and to which the driving reins are buckled and pass back to the driver.
