FRANCE. The new law against clubs has already been put n force. On Monday the ministry introduced into the Legislative Assembly a resolution for regulating the press. The new law is nearly the same as the law of Louis Phillippe, and powers are given for the temporary suppression of every journal attacking the constitution or making an appeal to arms.

The number of persons arrested at Lyons, in consequence of the attempted insurrection, amouned to more than 200.

The bickerings which have been carried on be-tween the President and the ministry are rapidly approaching an issue, which is supposed will lead to the retirement of some of the leading members The principal measure of discord is the anoma-

lous policy pursued in Italy.

Advices from Paris to Tuesday evening state that the city was perfectly tranquil, and that busie Bourse was steady, and prices had an upward tendency. ROME.

After a severe bombardment, the squadrons of tions and defences, but up to the 23d and 24th, this severe bereavement. they had not made much progress. Every inch of ground was stoutly defended by Garibaldi, who still continues to animate his troops to resistance.

Advices from Calcutta to the 8th, and from Sombay to the 21st of May have been received, and are satisfactory in the extreme. The country is restored to perfect quiet, and the commercial reports state that at the close of the business season only small stocks of goods were left at Bombay and in the interior markets.

PROGRESS OF THE STRUGGLE FOR FREEDOM. The Hungarians were partially defeated by the Austrian troops on the 21st, and were forced to retire beyond the Waag, where, from the nature of the country, they will be better able to repel the advance of the intruding forces. It appears from letters in the Austrian and German journals, that engagements have recently taken place between the Austrians and Hungarians at Karvoor Syred, and on points of the Waag. Whilst some ascribe tory to the Austrians, others give it to the Hungarians. GERMANY

The accounts from Central Germany and Prussia are of a much more pacific character than hitherto. CHINA.

MORE TROUBLE BREWING. We hear from China that the Emperor has refused to carry out the stipulation of the two treaties. which provided that Canton should be open to for eigners. In the communication of Seu, the Governor of Canton, to Mr. Bonham, he says that the imperor had determined that as the people of Canton had refused to receive foreigners into the town, how can he force an opposite course to the people. From the nature of the proclamation, it is quite plain that the authorities were prepared to resist the entrance of the foreigners into the city, But a great sacrifice of human blood has bee avoided, by Lord Palmerston having given special directions that nothing more should be done report the repudiation of the treaty to him.

Dr. RICHARDSON'S BITTERS.—In our columns may be found an advertisement of Sherry Wine Bitters, prepared by Dr. S. O. Richardson, of South Beading, Mass They are, as caid to be, undoubted adily somposed of a variety of valuable and purely vegetable matter, and from our own experience, as well as others, we can speak highly of their renovating and invigorating effects upon the system.—We have a good opinion of the Bitters, as they are not a quack nostrum, but discovered, prepared, and vended by a regular physician, a graduate of the college of our own State, and who said but little in the way of puffing them himself, but leaves it to those who try them to judge themselves. For the diseases that many are liable to in the spring and summer, such as debility, dyspepsia, bilious and nervous complaints, we do not hesitate to say that these Bitters will be found a safe, agreeable, and effectual restorative. As good health is one of the greatest of earthly blessings, we would early advise those laboring under the above diseases to make a trial of Dr. Richardson's Bitters, they can do nharm, and may do much good, as we are confident in many cases they have. Vegetables and vegetable medicines are unquestionably the most congenial to the human system.—[Dover, N. H., Gazotte. For sale by J. GISH & BROTHER, Booksellers, and JOHN F. Concord, N. H., March 2, 1846. Mr. S. W. Being persuaded to try a bottle of WISTAR'S BALSAM OF WILD CHERRY, without the least confidence in its efficacy, or that of any other proconfidence in its efficacy, or that of any other pro-scription, no one can fully understand my surprise and joy, when I found the difficulty almost entirely femoved before one bottle had been used up.—
Having a mortal aversion to medicine and seldom using it in any form, nothing but sympathy with my fellow sufferers induces me to make this public

statement, and recommend the article to others similarly afflicted. With respect, yours truly, HENRY WOOD.
