Prothonotary's Office. Youth, Age, Style, Taste, Beauty, and Fashton.—The seasons of life should be arranged like those of the year. In the spring of youth, when all is lovely and gay, then as the green covering is spread on all the face of smiling nature in brightness and beauty, so let the dress partake of the season. Fine taste as well as fashion decrees the necessity of nicely adapted garments; to age, circumstances, and season. The man whose head is silvered over with age, who feels not the blood of youth dancing in his voins, should not run into catremes of dress—nor yet should he permit his Clothing to be so fair behind the times as to render him ridiculous. There is a becoming Fashion-fashionable dress suitable for the age and season of life, as well as for the season of the year. You can be suited in handsome style, in CLOTHING that is well and fashionably made, of good majerials, that will fit well, and become the figure and season, at the LANCASTER HALL OF FASHION of JOS. MR. HENRY E. LEMAN:—Your favor of the 25th inst., is at hand, and in reply say that the Grindstones we run with Wortz's wheel are from 5 to 6 feet high, 9 to 12 inches thick, weighing rom 3 to 5000 lbs. We formerly used an undershot wheel 12 feet wide and 14 feet high. Our head in an ordinary stage of the water is about 3 feet, 3 or 4 inches. Sometimes much less than that. With the old wheel we run two grindstones. In the same place we have now four of Wortz's wheels (3 36 and 1 40 inches.) running four grindstones and one trip hammer weighing about 80 lbs. with less water and doing more work in the same time. In regard to the quality of the wheel for the purpose of grinding, it is far superior to any I have ever used or seen used, and for a low head I believe it is the best wheel in use—during the whole winter (which best wheel in use—during the whole winter (which has been unusually cold) we have not been affected at all with the ice, and in high water at a stage which would stop the old wheel entirely, we now find no inconvenience from back water. Any further information on the subject I will be happy to communicate, or it you could make it convenient to visit Chambersburg I will take great pleasure in showing you the wheels. Respectfully, yours, THOS. CARLILE.
