Seitz's Safety Bridle Bit.

THIS is a safety Bridle Bit invented and secured by Mr. Henry Seitz, of Marietta, Pa. This Bit is expected to supersede eventually all others, either for riding or driving, combining, as it does, the common snaffle, so arranged with the pulley, as to give any person perfect power over the most vicious or frightened horse. It obviates the objec-tions made to the severe bits now in use, which from their painful action, often make a spirited horse rear, kick and try to run away. This bit is pleasant in its action on the mouth, causing no pain whatever, and has the r quisite power when wanted —no horse having been found able to resist it.

The operation is as follows: The rein is hooked

firmly to the saddle at A, passing through the loop C, into the bit over the roller at B, and securing it fast to the ring D, which prevents it from drawing back and forms the check rein now in use, and to which the driving reins are buckled and pass back to the driver. For horseback, the loops and rings are dispensed with, the rein being continuous, forming two reins, one of which is thrown over the saddle horn or strapped to the pummel, and the other to the rider's hand—both reins can pass throw the rings of a martingale. For ladies it is particularly accompanded as account of its refer and larly recommended on account of its safety and power, as a horse is by no means able to throw his head sufficiently low to kick. For double harness the reins should pass from the 1st horse over to the bit of the 2nd, through the bit and back to the the saddle piece at G, of the 1st horse—platting the reins as they cross each other between the horses.

There is no necessity to multiply references, as the Bit recommends itself, upon inspection. For sale, wholesale and retail, at manufacturers' prices. GEO. M. STEINMAN, Lancaster

Rheumanism.

This is only one of more than four thousand cases of Rheumanism that Dr. Townsand's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by ite avaractimery virtues.

James Cammings, Ecop., one of the assistants in the Lonatte Asylum, Blackwell's Island, is the gentleman spoken of in the following letter.

Blackwell's Island, Sept. 14, 1847.

Dr. Townsand—Dear Sir; I have suffered terribly for this vesses with the Rheumanism consistents of the

thereof, and for the general prostration of the system—
no matter whether the result of inherent cause, or causes
produced by irregularity, illness or accident. Nothing
can be more surprising than its invigorating effects upon
the human frame. Persons of all weakness and lessitude
from taking it at once become robust and full of suergy
under its influence. It immediately counterests the
uservelessness of the female frame, which is the great
cause of Barrenness. It will not be expected of us,
in cases of so delicate a usure, to exhibit certificates of
cures, performed, but we can assure the afficted, that
hundreds of cases have been reported to us. Thousands of cases where fundles have been without children, after using a few hottles of this invaluable medicine, have been blessed with fine, healthy offspring. It
has been expressly prepared in reference to female complaints. No female who has reason to suppose sha is
approaching that critical period. "The turn of life."
should neglect to take it, as it is a certain preventive
for any of the numerous and horrible discuss to which
females are subject at this time of life. This period
may be delayed for several years by using this medicine. Nur is it less valuable for those who are approach,
ing wunnahood, as it is calculated to assist nature by
quickening the blood and invigorating the system. Indeed, thus medicine is invaluable for all the delicate
diseases to which women are subject.

Grent Blessing to Mothers and Children
It is the safest and most effectual medicine for purfying the system, and relieving the suffering strendant
upon childbirth ever discovered. It strengthens both the
mother and child, prevents pain and disease, increases
and enriches the food, those who have used it think it is
indispensable. It is highly useful both before and after
confinement, as it prevents diseases attendant upon childbirth. In Coativeness, Piles Cramps, Swelling of the
Feet, Despondency, Heartburn, Vomiting, Pain in the
Back and Loins, False Pains, Hemorrhage, and in regulating the Secretions and equalizing the circulation it
has no equal. The great beauty of this medicine is, it
is always safe, and the most delicate use it most successfully.

Notice to the Ladies. Great Blessing to Mothers and Children

Is always sede, and the most delicate use it most successfully.

Notice to the Lindice.

Those that insitute Dr. Townsend's Barsaparilla, have invariably called their stuff a great Remedy for Females &c., &c., and have copied our bills and circulars which relates to the complaints of women, word for word-ut there men who put up medicine, have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A nimber of these mixtures, Fills, &c., are injurious to females, as they aggravate disease, and undernine the constitution.
