racter of the democratic party, and can read aright the signs of the times, who does not clearly per-ceive that the democrats will be completely united, in this State, in the great struggle at the next elec-tion? These rival addresses of the two factions, and all their juss and jury at Rome, amount to nothing, and afford no indications of continued dis The whig journalists, bless their innocent souls, as usual, reckon entirely without their host in the present instance. Repeatedly as they have been taught that democratic "discord is harmony August 21] not understood," they persist in their blundering disregard of all experience; and are only awaken ed to a sense of their folly by receiving the cus-tomary periodical licking at the hands of their quarrelsome, squabbling, discordant, disunited op quarreisome, squabbing, discordant, disunited op ponents, who always manage to be affectionate enough on election days. We have not the least doubt that the democrats will carry this State tri umphantly at the next election. Their defeat in the presidential contest was the result of the deter-mination of Van Buren to kill off General Cass. In that notable exploit, the barnburners succeeded will now assuredly unite and and both factions carry all before them, the motives of disunion having been removed. A 'few of the leaders of the nunkers will stand out to the last. But the masses of the party are at this moment, to all intents and nerfectly united; and the leaders who tic to fall in at the proper time. But the dear, harmless, unsuspecting, joyful,

dunderheaded whigs, can't see all this! At almost every step, as they blunder along, their shins are broken by the stubborn facts over which they stumble, but they will not be admonished that they are in the wrong track-not they. In one word, the whigs never had tact or common sense enough to manage their affairs with discretion. They are mmeasurably behind their opponents in knowledge of human nature and the tactics of party. Here hey have, at this moment, at the head of the general government, a man who possesses, the elements of universal and enduring popularity, and yet the fools don't know how to turn him and his popular ity to account ! They will be beaten shamefully n this city and State; and, according to all appear ances at this moment, break down still mor shamefully in the administration of the genera We believe we must take General Taylor out of the hands of these blind, blundering vhigs, and put him on his own platform. No popu larity, however well deserved—no patriotism, how-ever pure—no judgment, however sound—could counteract the stupility of a set of politicians who fan y those opponents dead, from whom they are about to receive a fatal kicking; and who flatte themselves that their own party is strong and uni-ted, when it is crumbling into fragments. Verily, verily, General Taylor must be got out of the hands of the Philistines.-N. Y. Herald.

MYSTERIES OF THE DEMOCRACY, AND MANKESS OF THE WHOS.—The whig journals throughout the country are quite in cestacies, on account of the fancied irreconcilable disunion of the democratic party in this great State. Well, we declare, these sapient whig journalists will be the death of us: They are the most amusing wretches in existence. They are continually reminding us that they can see as far into a millstone as anybody; and yet, poor souls, here they are, utterly blind to the real state of political affairs at this moment. " Heaven the praised!" they exclaim " there is to be no union of barnburners and hunkers! —" The division was made more decided than ever at Rome!" —" The inscally democrats have gone to perdition; so lets' be gay !— let's be gay." And off they go in fits of hysterical laugher. Now, who is there at all familiar with the char racter of the democratic party, and can read aright the signs of the times, who does not clearly per-Influenza and Consumption. well known to be the most speedy cure ever known, as thousands will testify, whose lives have been Cast Oven or Band Box Stove,

The subjoined letter from the Rev. Henry Jewell, a clergyman of the Universalist denomination, is worthy of the highest consideration. Mr. Jewell was formerly settled in South Reading—the place of my manufactures. MR. HENRY E. LEMAN: — Your favor of the 25th inst., is at hand, and in reply say that the Grind-stones we run with Wortz's wheel are from 5 to 6 feet high, 9 to 12 mches thick, weighing rom 3 to 5000 lbs. We formerly used an undershot wheel 12 feet wide and 14 feet high. Our head in an ordinary stage of the water is about 3 feet, 3 or 4 inches. Sometimes much less than that. With the old wheel we run two grindstones. In the same place we have now four of Wortz's wheels (3 36 and 1 40 inches.) running four grindstones and one trip harmer weighing about 80 lbs. with less water and doing more work in the same time. In regard to the quality of the wheel for the purpose of grinding, it is far superior to any I have ever used d or seen used, and for a low head I believe it is the best wheel in use—during the whole winter (which has been unusually cold) we have not been affected at all with the ice, and in high water at a stage has been unusually cold, we have not been affected at all with the ice, and in high water at astage which would stop the old wheel entirely, we now find no inconvenience from back water. Any fur-ther information on the subject I will be happy to communicate, or it you could make it convenient to visit Chambefsburg I will take great pleasure in showing you the wheels. Respectfully, yours, THOS. CARLILE.
