RESUMPTION OF WORK ON THE NORTH BRANCH CANAL.—We are sincerely gratified to learn, not-withstanding our apprehensions to the contrary, that the report of the accounting officers will authorize an immediate resumption of a portion of the work on the North Branch canal. This work, when completed, will benefit more the general in terests of the state, and add more to the revenue than the expenditure of a like amount of mone has ever done heretofore. That the means exist to cure its completion within the coming two years we endeavored to show in our last number, and we believe have shown to the satisfaction of every man who has investigated the subject, with ing one dollar to the public debt. Let the friend of the measure pursue a wise and judicious course and succes is certain. What that course ought to be, we have heretofore clearly indicated. To our friends in various parts of the state, who are not familiar with the locality and advantages of the work, and who have heretofore been so much deby estimates and glowing reports which proved false, we say, be not alarmed at the resumption of this work. We have not exaggerated its importance, nor over estimated its advantages. All we have claimed for it will, if it is properly managed, he more than realized, and on this we are ling to stake any reputation we may have.

Interesting Statement from the Empire State!

Schuylerville, N. Y., April 28, 1847.
Mr. S. W. Fowle—Dear Sir: A desire to benefit the afflicted, has induced me to make the following statement of facts. My son, now seventeen years of age, has been afflicted, during his whole life, with a constant cough and pain in the chest, accompanied with night sends and hactic fear; which panied with night sweats and a hectic fever, which produced great emucination and debility. During this time he was attended by many physicians of the highest repute, whose prescriptions gave but tem-porary relief. All our neighbors who saw him him as one who was rapidly approaching an early and premature grave. I was prevailed upon by a friend to try WISTHR'S BALSAM OF WILD CHERRY. He commenced its use, and the FIRST bottle gave him astonishing relief, and after using four bottles, his disease was overcome, and he was restored to sound and permanent health. WM. PETIT.
