with the Intelligencer, a German Democratic paper to be called the LANCASTER EAGLE. Ar the urgent solicitation; of many Democratic

friends, as well as from our own belief that a paper of the kind is greatly needed in the County of Lancaster, and could be well sustained by our German population, we propose issuing a German paper with the above title, as soon as a sufficient number of subscribers can be obtained to warrant the undertaking.

The paper shall be conducted on strictly Democratic principles, and will advocate the men and measures of the party zealously and fearlessly. Strict attention will also be paid to the literary and news departments, and nothing shall be omitted on our part to make it a useful family and political

Should a sufficient number of subscribers be obtained, the publication of the paper will be commenced about the 1st of January next,

The "EAGLE" will be printed on a medium sheet, and furnished to subscribers at the low price of \$1,00 per annum-payable in advance, or before the expiration of six months from the time of subscribing. GEO. SANDERSON.

Johnston's and Taylor's Jaunt.

If a man has an object to attain, we like to see forward, manly way, and not by deceptive means not be avowed, and whose success is predicated upon the fulfilment of a fraud. Now every body knows that the jaunt of President TAYLOR, through the State of Pennsylvania, performed under the to their promises and pledges—and that the whole advance his own interests, by operating on the ap- objects. proaching election. He calculated that the pres ence of Gen. TAYLOR, would call together large masses of the people, out of curiosity to see a live President, in the person of one who had led our victorious armies in Mexico, and that thus, he would have an opportunity of operating upon those masses by playing of the jugglery of Federalism. Hence we see him thrust himself forward on all occasions, more prominently than the Presidentdoing the shaking of hands for him-and making his speeches, containing not the language of a noparty President, but the views of unadulterated Whiggery. True it is, this scheme was cunningly managed, having its hideous front veiled from the public eye, and only communicated to the faithful, through whom its details were to be executed;to all those who watched his Excellency's actions, and observed the care and anxiety with which he sought out the politicians. This fraudulent perverduplicity of Whiggery, which ever seeks to humbug the people into its support by specious appearances of innocent and praiseworthy conduct, whilst, at the same time, sinister aims are prosecuted. Here, the pretence was, Gen. TAYLOR's desire to witness the resources and capacities of Pennsylvania; whilst the real object was the glorification of the Whig party, an exhibition of its strength, and the laying of plans by which its different and dissatisfied elements might be united and consolidated, so as to secure a majority in the next Legislature, to consummate the iniquitous designs of the Federal party.

The Examiner, in reply to our inquiry of last week, claims that the present Federal party, of which it is an organ, is, par excellence, the true exand Manison, and that in sentiment and principle the whigs of the present day are the identical followers of those illustrious Democratic statesmen Well, if this modest pretension does not cause a blush on the cheek of more than one Whig reader of the Examiner, then are we at a loss to know what shame is. The absurdity of the claim set up by the Examiner, for the Federal Whigs of the present day, is so glaring, that it would be a waste of time on our part to bring forward facts to prove its falsity. Every school boy knows that the modern Whigs hate the principles of JEFFERSON and Madison with the same intensity that they do those undo all that those eminent patriots did during the

twenty-eight years they held the reins of government. IF We hope that, upon reflection, our neighbor of the Examiner will see the propriety of answering the very simple queries we put to him two weeks ago. Surely, they can "easily enough be answered," and we do not think that our modest request can be construed into a want of courtesy towards the Editor of that paper. The subjects embraced in those queries are intimately connected with the Tariff question, and, of course, ought to have direct and unequivocal attention from one who professes such exclusive and disinterested friendship for the manufacturing interests. We again repeat our proposition, that we will give direct answer to his interrogatory, whenever the same courtesy is extended to us. Is the Examin

Democracy and Federalism. There never was an organization based upon

urer and more correct principles, and having in iew the working out of higher and nobler sims, than that of the Democratic party of this country. From its institution down to the present hour, it has been the faithful supporter of Republicanism, ad the true friend and advocate of progress, without exhibiting a single instance of infidelity to its principles, or a desire to build up a system in conlict with the perfect freedom and equality of every itizen. It has labored earnestly and devotedly to sustain, in their uncontaminated purity, the institutions of the Country, and to thwart the machinations of those who are constantly toiling to pervert their purposes, and build up thereon a system of privilege and monopoly inconsistent with the intent purposes, let the history of the Republic answer. Under its fostering care the feeble beginnings of the Government have grown into magnitude and greatness. so much so, that within a period of sixty years, it stands unrivalled in power, resources, and influence, among the nations of the earth. Step by step, the Country has advanced in all the elements that constitute a great and powerful people. Her com-merce, in extent and variety, is second to none. Our merchants traffic with every nation, and whiten every sea with their peaceful canvass, returning laden with the rich fruits of every clime. Our borders, under Democratic rule, have widened from ocean to ocean, embracing within their limits boundless resources, and a field of glorious enterprise well adapted to the genius and energies of our people, whose capacity for any undertaking daily enlarges with the opportunity it has for exercise. All these grand results are directly attributable to the wisdom of the Democratic principle, and its happy adaptation to meet all the wants and wishes of a people, to mould their characters in California into the Union as a State, and for officers octagon administration, sink into such utter nothing.

The Champions of Monopoly.

The Whig leaders in this country have always been the champions of Monopoly and Special Privilege. We have constant proofs of this fact. The last is the most familiar, it not the most striking. When Johnston ran for Governor, it was announced that no new bank should be chartered, while all the old ones should be restricted and reformed. He was chosen, and the result was, the infliction upon the people of a number of useless institutions, engagements. Who desires to increase the already vast and overshadowing evil? All parties in this and meaning of the Constitution. How far the State are honestly opposed to such an increase, and Democratic party has succeeded in effecting its though the Whig leaders are in favor of it, the Whig masses are not. In HENRY M. FULLER, the present Federal candidate for Canal Commissioner, you have one of the most ambitious and unscrupuous of these leaders. Last year, in the House of Representatives at Harrisburg-of which he was a member-he was always ready to vote for a Bank or a Corporation of any kind. To such a man a special privilege is a sort of title of nobility i distinguishing the rich from the mass of commu nity. Hence his attachment to this loose and licen tious legislation. What has not Pennsylvania lost by it? How many of her citizens have been plun dered and prostrated by it! It is the system that has covered us with debt, and impoverished many of our most enterprising citizens. It is the system that now, as heretofore, robs the poor, and plunders the hard-working man, by a host of ingenious and nischievous devices. Recollect voters, this is the zealously the supporter .- Pennsylvanian

Climax of Political Dishonesty. Under this caption, the Washington Union of a ecent date has the following able and truthful ar-

They conceived bold designs, and carried them out with an energy of surpose, which, while it provoked the displeasure of the people, commanded their respect. Believing and the lavish creation of all degrees of chartered "man to be incapable of self-government," they privileges. It is well known that these were the sentiments of the "old federal party," and by them advocated in the convention which formed our present constitution. They entertained them honestly, and continued to do so as long as there was a chance to engraft them in our present form of government. They failed, and patriotic still, as they conceived themselves. and indeed may have been, they immediately set to work to do indirectly what they had been unable o accomplish by other means. Here commenced that system of construction and implied powers deemed by them necessary to divide the people into two classes-the poor from the rich-the "high born' from the low born-the few from the many-the governors from the governed. Whatever may have been originally the real sentiments of this party, system of which Fuller, the Whig or Federal canand how long, if honest in them, they continued didate for Canal Commissioner, is warmly and they have been constantly degenerating, until now they have become so utterly unprincipled and dishonest, that they have forfeited, beyond redemption. the respect of the democratic party, and disgusted even a large number of their own upright partisans. ral election for members of the Convention to form We verily believe that the present so-called "whig," a Constitution, preparatory to the admission of but "federal party" will, after the lapse of this such a shape as to train them up in the pursuit of for the intermediary Government, was held on the ness, that it will not serve the useful purpose, "et value of freedom, and improve it by sustaining of Gen. TOWN FACTS AND FANCIES.

THE NEW LARCASTER PRISON.—In our recen rip to Lancaster, says the editor of the Pennsy anian, we paid a visit to the New Prison, which has progressed so rapidly, since we last saw it, as o afford a good idea of what it will be when finished; and anything more striking and beautiful we cannot imagine. The commanding situation which it has been placed, (a hill over-looking the whole country,) the massive yet varied and picturesque grouping of its towers, all combine make it one of the most imposing and beautifu structures we have ever beheld, and conveyed our mind the most vivid idea of a fendal stronghold in all its pristine grandeur. The front has a length of 200 feet, flanked at either extreme by octagonal towers ornamented by crenulated battlements and cruciform embrasures. In the centre of this front is a group of four large towers, two circular and two round, from the centre of which rises the keep of many sides, and ascending to the height of one hundred feet; above which, but connected with it, rises a graceful stair tower to the height of ten feet, making the whole altitude one hundred and ten feet; from the top of this tower, the view obtained will be unsurpassed by any in the Union, commanding the valley of Lancaster-unequalled in richness, and four or five adjoining counties, through which the Susquehanna rolls its majestic course towards the sea. But the most pleasing feature in the whole structure is the entrance; placed between two massive circular towers before mentioned, is the entrance gateway, with a richly decorated arch, supported upon columns, and overhung by heavy machiolations; through this gateway rises a pon derous portcullis, giving entrance into the interior of the building; the whole forming a fitting ap proach to such a pile. Of the interior plan, we have not time at present to speak, nor is it necessary. The arrangement is that of HAVILAND'S Radiator blocks, which have a world-wide reputation, and in the interior, all that the experience or ngenuity of the artist could suggest has been embodied. We have always heard that in interior arrangements Mr. H. was unequalled, but, in this case, he has shown that his taste fully equals his powers of combination. Of this the material of which the building is constructed affords a remarkable evidence; it is a beautiful light salmon colored sand-stone, first discovered and used by Mr. HAVI-LAND in the Reading Prison, and since then in the new Pennsylvania Lunatic Hospital, now erecting

at Harrisburg. We cannot imagine a more beautitul material, and we hope to see it used in our new County buildings, affording as it does another proof of the inexhaustible riches of our State in all the three counties of Berks, Lancaster and Lebanon. Lancaster, so well known for her wealth, adding to it a reputation for taste; and when she builds herself a court-house of the same beatiful stone, she will no longer have occasion to blush for her public buildings.

Taylor returns to Washington a shadow of his ormer self. From the moment when he entered Pennsylvania, he seemed to have been infected with bad company. Johnson embraced him at York. Stevens at Lancaster; Ritner at Carlisle; John Denny at Chambersburg; Harmer Denny at Bedford; George Darsie, at Pittsburgh; and Charles M. Reed at Erie. Even the disinterested attentions of the Democracy could not wholly dissipate the fatal vapors arising from such pestilential associations, and when he escaped into New York, the dead than alive, fully satisfied, no doubt, of the danger he has escaped by mixing in bad company. The same evil influences killed General Harrison. In the same period of time that sufficed to sen the aged and infirm Hero of the Thames to his grave, we have seen the hale hearty Hero of Buena vista enfeebled and broken as it by the hand of the pestilence itself. We trust the latter may live aroughout his term; and that before he retires he may make one bold effort to redeem his memory from the imputations of the bold bad men who

How. James Buchanan.—The Delegates in atndance at the Democratic County Convention sterday, united in a joint letter, inviting the Hon AMES BUCHANAN to stop in this city when on his vay to Meadville, which place it is understood he tends visiting in the course of the next fall. We eel confident that every Democrat in Allegheny County, will be pleased to welcome this distingui shed patriot to the city.-Pittsburg Post.

When intelligence reached General Lane that Indians on the frontiers of Oregon gave evidence of a disposition to commit outrages on the white settlers, he without a moment's delay started in person to the scene of danger and quelled the savage outbreak. But when General Taylor hears hat whole settlements are broken up in Florida by the incursions of the Indians, and when the orders of Texas are desolated by the bloodthirsty Camanches, instead of rushing to their rescue of providing adequate means for their defence, the second Washington" immediately starts on a plea sure excursion through the principal States of the Union, making himself ridiculous by uttering silly speeches, and bringing contempt upon the high office which he holds .- New Albany Democrat.

We often see notices of editors rising, but the fact is editors have risen long since to the top. Old Ben Franklin stands number one among Amercan worthies, and since his day editors don't set heir craft down in any second place in this country. cently an editor in Europe stands forth the hampion of republicanism, in the great contest of he age. We allude to Kossuth, the Hungarian chief. He was educated as a lawyer, but found the rofession below his abilities, turned editor, and y his pen shook the throne of Austria. However great may be his success in his present station, what he accomplished as editor of the "Pesth Herlip" can never be eclipsed.

DISTINGUISHED DEATHS .- The Augusta Constiutionalist, of the 5th inst., announces the death of the Hon. Edward J. Black, of Scriven county, for several years a Representative in Congress from the State of Georgia. The Hon. A. Newman, a democratic member of Congress elect, from Virginia, died in Pittsburg on Saturday week after an illness of only a few hours. The western papers mention the death of the Hon. Amos Lane, formerly a member of Congress from Indiana. The West Tennessee Whig gives an account of the death of the Hon. Adam Huntsman, at his estate near Jackson, Tennessee.

REWARDS FOR ARTISTS .- The Pennsylvania cademy of the Fine Arts offer three prizes-one of \$750, one of \$500, and one of \$250-for the best pictures on some Historical, Scriptural, or Dramatic subject, in size not less than 20 inches by 40, to be delivered at the Academy on or before April 10, 1850. They also offer a prize of \$300 and of \$200 for Landscapes or Marine Views. Address John T. Lewis, Secretary, Phila.

NEW YORK.—The following are the nomination: made by the democratic convention at Syracuse:-For judge of the court of apppeals, Hiram Denio of Oneida; for comptroller, John A. Lott, of Kings; for secretary of state, Jesse C. Dann, of Jefferson; for attorney general, Levi S. Chatfield, of Otsego; for treasurer, Darius A. Ogden, of Yates; for state engineer, John D. Fay, of Monroe; for state prison nspector, Darius Clark, of St. Lawrence; for canal commissioner, Frederick Follett, of Genessee

To Assessons .-- There was a law passed by the egislature of 1848, requiring the assessors to assess all young men between the age of 21 and 22 years. The non-fulfilment of the law does not exclude such persons from voting, but is intended, we believe, to aid in securing the collection of taxes the following year. As such is the law, assessors should know it.—Clarion Democrat.

IFA son of Hon. James Cooper, United States Senator, aged about 11 years, met with a distressing accident at Pottsville, on the 6th inst., on the Mt. Carbon Railroad, near the junction with the This of cars drawn by horses, and in attempting to severing one of his legs from his body.

MR. EDITOR -I am so wedded to reform, to the expressive word progress, that I would not let anything escape my notice that tends to this great all the grace for which the author is so distinguished. | object. I observed in your paper some days since the advertisement of Messrs. Trndal & Mitchell of Philadelphia, dealers in China, Glass, and Queens ware, in which they profess to have remodelled their business in such a manner as to enable them cated to the service of Almighty God, on Sunday, to undersell any house doing business on the old system. I availed myself of a visit to the city to call and examine this principle for myself, and I found their arguments irrefutable. The common system of credit requires the dealer to set down five per cent. on the whole amount of his sales.-He must furnish to the country dealer an amount of staple articles at less than cost, which will make GENERAL TAYLOR ALMOST SACRIFICED .- Gen. an additional loss of ten per cent.; all of which must be made up by additional profit on the finer qualities of wares. To the cash dealer there are no losses—and he has at once a clear advantage of fifteen per cent. deduction to offer from wholesale Market street rates. To this advantage Messrs. T. & M. have the most extensive variety to choose from, where all tastes can be pleased; and fron the large amount of their sales they can afford to sell at very small profits. In illustration of these facts they offered me an entire China dinner set at \$12,00, which under the old system would have only way to keep off death was to repel the Whig cost \$20,00, and other articles in proportion. In a leaders. He is finally landed at Washington more word, it was made perfectly clear to my mind, and word, it was made perfectly clear to my mind, and I feel glad to accord my testimony to the fact; and recommend them to the patronage of my fellow citizens of LANCASTER COUNTY.

FAST WORK .- the Record says, the Shingle ma chine of Crosby P. Morton, exhibited lately at his mill at Mortonville, East Fallowfield, cut in five minutes, by water, 275 shingles-being at the rai of 3300 per hour; and by one horse power, 370 in five minutes—being at the rate of 3200 per hour. The qualities of the wood from which the would lead him to his ruin, in order that their schemes may be carried into effect against the shingles were cut, were chesnut, pine, black oak,
