Capital \$250,000—Charter Perpetual. Make Inrance on Lives at their Office, in Philadelpha, and at their Agencies throughout the States, at the lowest rates of premium. Persons should insure their lives, and do so without delay, whist they are healthy and fit subjects to be insured. In this Office there are advantages greater than have new too home. In this Office there are advantages greater than have ever yet been derived from the system of Life Assurance; which reason and experience convinec the Trustees may with safety be offered to the public. It will be found, on inquiry, that most offices have in the outset professed to act on some new principle; or to offer to assurers some one particular benefit not to be obtained from other Societies. But policies are offered under various societies. But policies are effected under various circumstances, and with widely different objects. and what may facilitate the views of one man, affords no accommodation to another. It appears, therefore, to the Trustees of the Equitable, that

the greatest good will be effected by that office. which allows such reasonable advantages to every assurer, as at the time of completing his Policy, he considers to be suitable to his particular case. On this principle they act, and a few instances will suffice to show the benefits derivable from its adoption—the greatest good of the greatest number;
No policy will be disputed, unless under an act

Thirty days allowed after each annual payment becomes due, and fifteen days after each quarterly and half yearly premium becomes due, without forfeiture of policy. The extraordinary advantage afforded by means of the Half Credit system, in not requiring, under any circumstances, an outlay of a larger sum of money than is absolutely necessary to secure the amount insured, is peculiarly applicable to the CREDITOR desirous of possessing a policy on the life his DEBTOR. If the debt is paid off during these the debt is paid on during these five years, he can discontinue the assurance altogether, having secured the amount, in the event of the debtor's death previously, at a less expense than would in any mutual office be charged for assuring the life for seven years. ADDRESS OF THE DEMOCRATIC STATE CENTRAL

DEMOCBATS OF PENNSYLVANIA: The issue is once more made in our good old Commonwealth, and it remains for you to say whether it shall be redeemed or not. This issue is not a new one, although it may be presented under different aspect. It has been the constant and unchanging object

of the Democratic Party in this country, ever since the days of Thomas Jeffenson, to establish upon a firm basis, and to put into successful practice that fundamental doctrine of the Declaration of Independence, that all men are born, politically, FREE and EQUAL; and while a diversity of objects somevhat local in their character, may have temp rily changed the issues from time to time, there ever has been a contest in which this important principle has not been involved directly or indirect. ly. The questions of Banks, Tariffs, an Independent Treasury, distribution of the sale of Public Lands,

its name or its objects: They are universal suffrage

and political equality. Federalism is opposed to poth—at first openly, but of late under various guises and changes of names.

In the early days of our government, the enemies of democracy openly declared their distrust of the people, and labored to restrict popular rights and privileges by legislative enactments. They failed—and the whole history of federalism under the different names of Federalism, National Republicans, Democratic Whigs and Taylor Republicans, has been untiring labor to do that indirectly which could not be done directly, to wit: by establishing corporations without restrictions, they hope to control the finances, trade and legislation of the country, and to smother individual enterprize; by having a property of the Grand Lodge of the United States, convened in Baltimore, presents the following facts:

In the success of these measures the democracy have nothing to fear, they have always triumphed and always will; but when issues are abandoned and a military here. and a military hero professedly without political principles, is presented to the people and claims their suffrages for his military services, our rulers may change, but our principles never; and such has been the result of the late Presidential and Gubernatorial elections. The country never was in a state of higher prosperity than it is at present; peace, happiness and abundance are every where. Some one particular branch of industry may languish, but it is only temporarily, and this constitutes but a small proportion of the great thriving industry of the content of the small proportion. industry of the country. All these exist under the full sway of Democratic principles. Not a single line has been blotted out by the election of Gen. Taylor, and by the late elections as compared with those of last fall, it would seem as if the people having sustained their country's war, and rewarded its hero with the highest honor in their gift, are determined to surround him with a Democratic Congress, allowing him nothing more than the name of President and the emoluments of office. We predict that in less than six months the national and state administrations will be without the power to pass a single act, either in the national or state legislatures. Still, while they are without

Democrats of Pennsylvania, this is the issue,-Had you carried the State at the last election, it might not have been so—the only question to be passed upon in that event would have been the election of a competent officer for Canal Commissioner. As it is, you have now the double duty of redeeming your State, by triumphantly asserting your principles, and of electing a good and competent officer to carry them out in the proper management of the Public Works. It was, with a full knowledge of this issue before them, that the Democratic State Convention, lately assembled at Pittsburg, placed in nomination JOHN A. Mr. Fuller, the candidate of Federalism and Nativism, is a young man of reputed wealth, a lawyer by profesvithout any experience whatever in relation to our internal improvements, and was never known or heard of in the State, until he served one session in the Legislature last winter. For the office he seeks, he seems not to possess a single qualification, and he rests his whole hopes upon travelling the State making speeches, declaring himself a Free Soiler, although he voted for a slaveholder for Pres-dent; a Rough and Ready to secure the Natives, and anything and everything to secure votes. Be-tween these two the people are to choose. We have no fear as to the result, if every Democrat will do his duty. Have the voters brought out and all will be safe—our party is united, and our can didate approved throughout the State—all that is now necessary is to go to the polls, and Pennsylvania will wipe out the stain of her defection, and

We have highly important news from St. Domingo by the arrival on Monday, of the schoone Julia A. Musler, at New York, from Miragoane Internal Improvements, &c., &c., have agitated this country for many years; and yet viewed in the abstract, good democrats are often at a loss to see what danger can accrue to their principles let these what danger can accrue to their principles let these was declared to the councils of things; but those who do, see in these measures be successful or not; few look below the surface of things; but those who do, see in these measures a foundation on which is to be erected the superstructure of privileged classes and privileg the superstructure of privileged classes and privileged interests. The democracy has never changed person and his wife were proclaimed Empered interests.

There always have been and always will be, at least two parties in a free government, and in ours the democracy represents the masses. It is the province of the other party under whatever name it may be known, to take care of privileged interests.

Husband's Fortune. A woman has her husband's fortune in her power because she may, or she may not, as she pleases, conform to his circumstances. This is her first duty, and it ought to be her pride. No passion for inxury or display ought for a moment to tempt her to deviate in the least degree from this line of conduct. She will find her respectability in it.—Any other course is wretchedness itself, and inevitably leads to ruin. Nothing can be more miserable than the crawfile. tably leads to ruin. Nothing can be more miserable than the struggle to keep up appearance. If it could succeed it would cost more than it is worth; as it never can, its failure involves the deepest mortification. Some of the sublimest exhibitions of human virtue have been made by women, who

have been precipitated suddenly from wealth and splendor to absolute want. Then a man's fortunes are in a manner in the hands of his wife, inasmuch as his own power of power to legislate, every one knows that the executive power will do its utmost to paralyze the democracy, with the hope of ultimately breaking down their principles. The policy of Governor Shunk was endorsed by an overwhelming majority in 1847, and nothing but the fatal security of the Democracy prevented the reassertion of their principles in 1848. No one dreamed of danger, and while all felt secure, Governor Johnston travelled the State apowing no principles for the rule. ciples in 1848. It never was intended by the Board to procure any other than Pennsylvania iron, and we have no doubt the quantity required will be readily furnished, at a reasonable rate, by the manufacturers of our own State.

The Peoria Register gives a good account of the sheep pastures of that part of Illinois. They are becoming numerously stocked, with very superior qualities of sheep. The entire number of head in the county is stated at 30,000, and the wool clip of last spring at 9000 lbs. The venerable Bishop Chase is one of the chief wool growers of that immediate vicinity, owning a flock of 2,000 head. C Stone has also a fluck of the same size, and there are several other flocks 1,100 to 1,500 head. The Register gives an interesting account of a flock of pure French Merinos just introduced into that co., by Mr. Truman Humphreys, of Elmwood. These sheep are represented as distinguished for the extraordinary firmness and thickness of the fleece, large frame and strong constitution. The head and face is completely covered with wool, down to near the end of the nose. The imported buck weighs some 250 lbs., and shears 22 lbs. of wool. The average weight of fleece from these sheep is said to be from

0 to 14 lbs, per head. The Democrats have elected a Governor in Tennessee, that went for Taylor Whiggery by housands; they have carried Indiana by thousands; they have swept Iowa; frightened the Whigs out t their senses in North Carolina; secured three out of four Congressmen in Connecticut; allowed Taylorism but one Congressman to swear by in Virginia; taken all to themselves in Texas, and virtually whipped their opponents in Kentucky; and yet the Whig papers will have it that the Demcratic party is "dissolved."-Indianapolis Sentinel.

THE CALIFORNIA GOLD REGION.-In the last number of "Sillman's American Journal of Science and the Arts," the editors mention that they have lately inspected specimens of platinum, found among the gold sands of California. They also announce, upon reliable authority, the Rev. Mr. Lyman, that the diamond is also found at some of the placers. He had seen one about the size of a small pea, of a straw yellow color, and having the

usual convex faces. When a crowd of gentlemen, standing on a corner, see a party of ladies coming, they should ever stand aside to let them pass, as it will be conidered impolite; but by permitting the ladies to walk around them they will get an opportunity of staring theme in the face, which is an evidence f
