We invite them to this co-operation in the good work of circulating the word of Life. Of 4,000 families visited by our Agent last year, 209 were destitute. Why not gird ourselves for it afresh, and complete it the ensuing year. Ought we to pursuse this work leisurely as if our duty would be discharged when this county is supplied? The foundors of this Society look-ed upon the destitute beyond its limits, as having claims upon their benevolence. Besides meet-ing the wants of the home field, they say their object also was "to supply destitute places that are romote," and they pledged their surplus funds for this object. The American Bible Society is endeavoring to supply not only our own Country, but, with

The American Bible Society has no particular ground to occupy as her own from which to collect funds, but calls on the State Societies to aid her in this And the State Societies call upon the County and other Societies in their respective limits. If each county only supply those in its field, and does nothing for the State Institution, the State Society can do nothing for the Nationd Institution, and if her Treasurer receives nothing, he can give out but what he receives.-Therefore if the good work of supplying the whole world with Bibles, is to be carried for-

They call for aid to print Arabic Bibles, from Syria-to print Armenian Bibles at Constantino-ple—Syriac, in Persia, also to print Bibles in the Mahratta at Bombay. From South Africa and South America they call for aid. If wise, we shall not wait for the light of Gospel truth to shine from this and other Christian countries, as great central lights until, by enlarging their borders, they consume away the darkness of heathenism. When men wish speedliv to burn over a burge they consume away the darkness of heathenism. 'When men wish speedily to burn over a large field they do not set fire to it at some central point and wait for it to spread thence over the whole. 'They set a fire here, they place a fire there—they place a fire yonder, and from these different points—fauned by the breeze of heaven —they let it spread until the whole is wrapped in one general conflagration. So would we speedily bless all mations with the light of the Gospel, let us put the Bible in India, put the Bi-ble in Persia, put Bibles in Syria, in Africa, in Sonth America, in Mexico, in our new Territory, along our Western Coast, and in the isles of the Pacific, and from all these different points let the light spread and glow, until the whole earth is illumined with brightness of millenial glory.

----Woman's Proper Sphere.

The following article is extracted from a late scourse of Rev. E. P. Rogers, on "The Obligations and Duties of the Female Sex to Christianity. Let me urge here upon my female hearers, es-pecially those who are in youth, the importance of taking loftier and better views of life than those taught by the vain world. It is a sad thing to see so many of the young and fair whose life is most a blank—I will not say a blot—whose keen sus-ceptibilities, whose noble powers, whose deep affections, whose precious time is lavished only on dress and gaiety, and fashionable visiting; who wear the bright apparel of the butterfly, and are as light and graceful, and as useless too; whose conv finds no higher or more improving subject than the idle gossip of the day, the last party, or the never failing topic—dress; whose reading is the misera-ble trash which is inundating every community and enervating and dissipating the minds of our vouth: whose whole life seems to be an aimles frivolous life; and who, as they flit by us on their ward, Counties and States must do something more than supply the destitute in their own limits.

While an increasing interest in supplying welly our home population with the Word of God, is showing itself in various parts of this State, there is also an impression broadening and deepening, that we must at the same time do something to that we must at the same time do something to the with the Bible to the heathen, and to those in send the Bible to the heathen, and to those in hands more destitute than our own. After seri-ously pondering the matter last year, the mana-gers of the Pennsylvania Bible Society, under a moral faculties be cultivated and stimulated, and deep impression of this duty, pledged that Soci-ety to give Three thousand dollars, to aid in giv-ing the Bible to those in foreign lands. We re-assured there is no beauty like that of govingsing the Bible to those in foreign lands. We re-joice to know that Pennsylvania redeemed her pledge. That work was done. With pleasure on the eve of this day of public Thanksgiving do we assem ble to evince our estimation of the Bible as the source of our common faith, and mingle with those of the Christian family who, whether from their national descent, or differences in minor iews, or preferences as to forms of worship, are inder different names, moving ouward as sections f God's sacramental host. The red men were not without while they pulled at the sundered part of the window suspicions, but kept their eyes on Smith's motions, while they pulled at the sundered part of the log. Every blow of Smith opened the crevice wider, which enabled the Indians to renew their holds, by inserting their fingers deeper into the crevice, when Smith, slightly changing the direction of the beetle,
