We take great pleasure in presenting these remedies to the afflicted. They are all of undoubted medicinal powers and hold out to the invalid a promise of relief, such as none others possess.—
They each have been thoroughly tried in a long successful private practice, and have established for themselves a reputation but few possess, and given better satisfaction to the afflicted than any of the boasted remedies of the day. Dr. Convers' Invigorating Cordial. THIS justly celebrated Cordial is now considered the only efficacious remedy, compounded from the materia medica, for those sad derangements of body and mind, caused by improper habits of youth.

The following are some of the effects of the violation of the laws of mans' physical and social
being;—Prostration, nervousness, dispepsia, pain
in the head, and dimness of vision; weakness of eack and lower extremities, premature decay of vital power.

Weakness of memory and power for mental ap-

plication slight, dejection, aversion to society, tim-idity and self-distrust. Young and middle aged men may here learn why they are declining in men may here learn why they are declining in health; why they become pale, eye-sunken and lusterless; why they are losing their youthful appearance and manly vigor. This Invigorating and Renovating Cordial has restored scores of persons who have ignorantly injured themselves in youth. It contains no mercury, or deleterious drug to injure or expose,—no hindrance from business.

Principal Office, 162 Nassau st., N. Y. OLD DR. JACOB TOWNSEND, THE ORIGINAL DISCOVERER OF THE lenuine Townsend Sarsaparilla OLD DR. TOWNSEND is now about 70 years of age, and has long been known as the author and discoverer of the Genuine Original Townsend Sarsaparilla. Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to these only who he was a sales. those only who had proved its worth, and known its value. It had reached the ears of many, never theless, as those persons who had been healed o sore diseases, and saved from death, proclaimed its excellence and wonderful HEALING POWER. Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to transkind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, the means are supplied; this Grand and Unequalled Preparation is manufactured on the largest sale, and is called for theorythout the learning gest scale, and is called for throughout the length and breadth of the land, especially as it is found

incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the old Dr's Sarsaparilla. The Sarsaparilla Root, is well known to medical men contains many medical properties and some properties which are inert or useless, and others which if retained in preparing it for use, produce fermentation and acid, which is inviting to the create Samuel Charles and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evap-orate and are lost in the preparation, if they are not orate and are lost in the preparation, if they are not preserved by a scientific progress, known only to those experienced in its manufacture. Moreover, these volatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the col-oring matter in the root than from anything else; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it " Sar saparilla Extract or Syrup." But such is not the

GENUINE OLD DR. JACOB TOWNSEND'S
SARSAPARILLA.
This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted a rejected; then every particle or medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerfu agent in the CURE OF INNUMERABLE DISEASES

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it doing wonders in the cure of

It possesses a marvelous efficacy in all complaints arising from Indigestion, from Acidity of the Stomach, from unequal circulation, determination of heliod to the head, palpitation of the heart, cold feet and hands, cold thills and hort flashes over the body. Is not this then the med

ine you pre-eminently need? But can any of these things be said of S. P. Town-end's inferior article? This young man's liquid not to be COMPARED WITH THE OLD DR'S, cause of one Grand Fact, that the one is incapa ble of Deterioration, and

NEVER SPOILS, while the other does; souring, fermenting, and blowing the bottles containing it into fragments; the sour, acid liquid exploding, and damaging other goods! Must not this horrible compound be poisonous to the system? What! put acid into a system already diseased with acid? What causes Dyspepsia but acid? Do we not all know thawhen food sours in our stomachs, what mischief is produces? flatulence, heart-burn, palpitation of the heart, liver complaint, diarrhea, dysentary colic heart, liver complaint, diarrhea, dysentary, colic, and corruption of the blood? What causes Rheumatism but a sour or acid fluid, which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which acts? So of nervous diseases, of impurity of the lood, of deranged circulations, and nearly all the ailments which affect human natur Now is it not horrible to make and sell, and infi

tely worse to use this Souring, Fermenting, Acid Compound of S. P. Townsend, and yet he would fain have it understood that Old Dr. Jacob Townsend's Genuine Original Sarsapa rilla, is an imitation of his inferior preparation.

Heaven forbid that we should deal in an article which would bear the least resemblance to S. P.
Townsend's article; and which should bring down
upon the old Dr. such a mountain load of complain
and criminations from Agents who have sold, and
purchasers who have used S. P. Townsend's Fer-

purchasers who have used S. P. Townsend's Fermenting Compound.

We wish it understood because it is the absolute truth, that S. P. Townsend's article and old Dr. Jacob Townsend's Sarsaparilla are heaven-wide apart, and infinitely dissimilar; that they are unlike in every particular having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what guarantee unscientific, unprofessional man, what guarantee can the public have that they are receiving a genuine scientific medicine, containing all the virtue of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease! It requires a person of some experience to cook and serve up even a common decent met. How much more important is it that the persons who manufacture medicines designed for **Weak Stomachs and Enfeebled Systems**

should know well the medical properties of plants.

This societed the cupidity of certain unprincipled men and an old man who has been engaged in pedding cheap publications for a number of year. This man's name is Jacob Townsond. Among others he applied to Charles Watrous, Esp. Editor of the Jamaies Parmer, who accorned such a proposition. Mr. H. Q.
