out of said balance, the following expenses are to be paid. Printing Notices and Auditors' fees,
In the foregoing statement it appears that the printing and publishing of notices of Fires, notices to members for collections of Fire Taxes, make a large portion of the expense to the Company, which will be much less hereafter, by making but one assessment per year for payment of losses; also much less labor to the Secretary. Treasurer. Directors and Agents, as provided by the late alterations in the act of Incorporation and By-laws, which will reduce the annual expenses of the Company a considerable amount.

The Company unfortunately sustained and paid many losses to a large amount this last year, making two collections amounting to 12 per cent on the premium notes. A number of Policies were surrendered for cancellation by some of the members, who thought proper to relieve themselves from contributing in such a manner any further to make up the losses of their fellow members. Yet with such millortunes and loss of a number of members, the Company has increased in the last year. A large amount of property Insured, and a larger amount of fremium Notes as a capital as was at the commencement of the year, and as appears from the number of applications for Insurances, the Company is in a prosperous condition.
