Balance in Treasury when all Fire Taxes are paid up. Out of said balance, the following expenses are to be paid, Printing Notices and Au-ditors' fees, In the foregoing statement it appears that the print-ing and publishing of notices of Fires, notices to mem-bers for collections of Fire Taxes, make a large portion of the expense to the Company, which will be much less heroafter, by making but one assessment per year for payment of losses ; also much less labor to the Sec-rotary, Treasurer. Directors and Agents, as provided by the late alterations in the act of Incorporation and By-laws, which will reduce the annual expenses of the Company a considerable amount. The Company unfortunately sustained and paid many losses, to a large amount this last year, making two collections amounting to 12 per cent on the premi-um notes. A number of Policles were surrendered for cancellation by some of the members, who thought proper to relieve themselves from contributing in such a manner any further to make up the losses of the fellow members. Yet with such misfortunes and loss of a number of members, the Company has increased in the last year. A large amount of property Insured, and a larger amount of Prenjum Notes as a capital as was at the commencement of the year, and as appears from the number of applications for Insures, the Company is in a prosperous condition.
