To the traveller and to the family circle it is invaluable, as a tew drops diluted in sugar and water present a safe and agreeable remedy to the invalid who requires immediate relief, as well as to the convalescing patient who needs a gentle tonic. In a Southern climate; where the relaxation of the system so generally induces thirst for stimulants, it will always be found an excellent substitute for those tempting beverages which debilitate the stomach and cause a morbid condition of its powers. PATENT MEDICINES. PATENT MEDICINES.

It is very seidom that we make any allusion to Puent Medicines, either approving or otherwise.

Unfortunately for the country, and for honest and conscientious inventors and venders of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he isagery apt to condemn the whole of them and buy not more, and inventors must only blame those of their number, [who ignorantly combine plain medicines together dy's; for there are many worthless Pills padelted and hawked about the country that are bought and sold at any prices, manufactured by impostors, who do not advertise them, but through the trick in calling them by names nearly similar to Dr. Leidy's, expect to sell them through Dr. Leidy's advertisements, and thus deceive and impose upon the public.

Dr. Keeler:—Sometime last summer your agent left me some of your Infant Cordial and Carminative, urging me try it. It so happened that I had a case; a child about six months old, whose stomach and bowels were in a very disordered condition, caused by a deficiency of its mother's milk. The attention of the reader is called to the fol-lowing astomshing cure, effected by the use of Sands' Sarsaparilla. This is to certify that I have a colored woman who has been afflicted for the last five years with Scrofula, and all the remedies I used had no effect to arresting the progress of the complaint; on the contrary, she constantly grew worse; and after expending between 870 and \$80 with physicians, besides using other popular remedies without suc-cess, until the disease had eaten away the carti-

cess, until the disease had eaten away the cartilage of her nose, made its appearance on various
parts of her body, and had finally commenced is
ravages in the roof of her mouth.

In this dreadful situation, with the prospect of
death staring her in the face, I stated her case to
Dr. Disosway, the agent for Sands' Sarsaparilla in
Newburn, N. C., by whom I was advised to use
the article and to my surgine and that of my that article; and to my surprise and that of my neighbors, to whom her case was known, after using four and a half bottles she was restored to perfect health, and that in the space of three weeks, and was able to work in two weeks from the time and was able to a sing it.

In witness to the truth of this statement, I have hereunto affixed my name, this 19th day of Sept., 1847.

The following is an extract from a letter received from Mrs. Bevan, who has been afflicted several years with Scrofulous Ulcers, Dyspepsia, &c., and recently an affection of the throat and chest:

Baileysburg, Va., Det. 13, 1845.

Messrs. A. B. & D. Sands: Before I commenced using your Sarsparilla, my sufferings were almost past expression; my throat was completely ulcerated, I had a dreadful cough, and there were frequently weeks together, that I could not speak above a whisper; and besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla a short time, my health improved, and my throat is now well; I am as free from cough and lightness of the cheat as ever I was, cough and lightness of the chest as ever I was, and can hear quite distinctly. Woburn, Mass., March 30th, 1846.

Messrs. Sands: Gentlemen—From what I have experienced, and from the information I have recently received from a number of persons of high respectability who have used your Sarsaparilla, I have not the least doubt but that it is a most valuable medicine, and that the numerous cerificates you have received of its efficacy are fully sustained by experience, and although its reputatian and utility are very extensive, and stand in no need of my humble efforts to increase them, I want all who are afflicted by disease to become acquainted with the efficacy and power of your valuable medicine.
