THE annals of medical science, affording as they do ample proof of the power and value of medicinal agents, have furnished no examples to compare with the salutory effects produced by "Ayer's Cherry Pectoral." The remarkable cures of diseases of the lungs which have been realized by its use, attested as they are by many prominent professors and physicians in this and foreign lands, should encourage the afflicted to persevere with the strong assurance that the use of the Cherry Pectoral will relieve and ultimately cure them.

ultimately cure them.

We present to the public unsolicited testimonials from some of the first men in our country, upon whose judgment and experience implicit confidence may be alread. may be placed.
Dr. Perkins, President Vermont Medical College,

one of the most learned and intelligent physicians in the country, considers it a "composition of rare excellence for the cure of that formidable disease, Norwich, April 26, 1846.

Dr. J. C. Ayer—Dear Sir:—Agreeable to the request of your agent, we will cheerfully state what we have known of the effects of your Cherry Pectoral and they have been astonishing indeed. Mrs. Betsey Streeter had been afflicted with a severe and relemtless cough, which reduced her very low; so low that little hope could be entertained of her recovery. Numerous remedies had been tried without effect, before the Cherry Pectoral. And that last cured her. George Watkinson, Esq., had to our knowledged been afflicted with Asthma, for eleven years and grown yearly worse, until the Cherry Pectoral has now removed the disease and he is as free from any of its symptoms as we are. The Rev. Mark Dane had been so severely attacked with the Bronchitist, as to disable him from his duties, and nothing had afforded him relief until I (Mr. Thorning), carried him a bottle of your Pectoral which cured him at once, and he now officiates as usual in his place.

These are three of the Cases in which we have

tes as usual in his place. These are three of the cases in which we ha

Among the distinguished authorities who have given their names to recommend Cherry Pectoral as the best remedy that is known for the Affections of the Lungs are 'The London Lancet,' 'Canadian Journal,' 'Charleaton (S. Medical School; Sir Richard Kane, Queen's College, Ireland; Prof. Rosenbaum, Leipsic.
The public have but to know the virtues and astonishing success of the 'CHERRY PECTORAL,' in curing diseases of the Lungs, when they will feel secure from these dangers, whenever this remedy can be obtained.
