It so happened that I had a case; a child about six months old, whose stomach and hovels were in a year, discolored sociality. and bowels were in a very disordered condition, caused by a deficiency of its mother's milk. The child was a mere skeleton; there was much tormma, tenesmus, and constant evacuations. I administered every medicine I could think of, with but a slight alleviation of the complaint. I then thought of giving your medicine a trial, commencing with small doses, I soon however perceived the child could bear a full dose as recommended in directions; before it had taken hall a bottle, the stomach and bowels had recovered their natural tone, every other bad symptom yielded and the child recovered very rapidly.

I have no hesitation in saying that your medicine is the very best for the above complaints I have administered in a 21 year's practice. Very respectfully, your friend, H. W. BOWMAN, M. D.

This is to certify that I have a colored woman who has been afflicted for the last five years with Scrofula, and all the remedies I used had no effect in arresting the progress of the complaint; on the contrary, she consumily grew worse; and after expending between \$70 and \$80 with physicians, besides using other popular remedies without success, until the disease had caten away the cartilage of her nose, made its appearance on various parts of her body, and had finally commenced its ravages in the roof of her mouth.

In this dreadful situation, with the prespect of ravages in the roof of her mouth.

In this dreadful situation, with the prospect of death staring her in the face, I stated her case to Dr. Disosway, the agent for Sands' Sarsaparillain Newburn, N.
