AND WILD CHERRY.

Sarsaparilla has caused much speculation in the Medical World. We use it very extensively in practice, and with the happiest results, as an alternative, &c. It is very beneficial in many complaints. Wild Cherry, when taken into the system, and continued for a length of time, in small doses, increases the tone of the stomach, and invigorates the whole system.—Wm. Besch, M. D., R. M. S. Wild Cherry is a most excellent article in Dyspepsia, if given with care and moderation. It is also effective in many forms of Dysentery, and combined with other articles, and especially Sarsaparilla, is excellent for the blood.—From the celebrated Dr. Ebèrle.

Dear Doctor-Gratitude for the immediate and lasting relief, received from your valuable Cordial and Carminative, induces me to take the liberty of writing to you, that you may know the value of a medicine which no family should be without. My friend, your agent, being in our neighborhood, called to see our family, and fortunately left a small bottle. I happened to have a severe attack of Dysentery from which I was not expected to recover; after every other medicine had failed to afford relief, your cordial was thought of, and wonderful to say the third teaspoonful had the effect not only to relieve the most excrutiating pain but to leave my bowels in a regular state. I expect to be in Philadelphia shortly, when I shall call and thank you in person.

Your obliged Friend,
G. R. Francey.
