MR. ANDERSON

PESPECTFULLY invite all those who love the beautiful, and especially those of cultivated taste, to call and see his collection from nature of GRECIAN LANDSCAPE PAINTING. It would be vain to enumerate the numerous en-comiums, which have been so liberally bestowed upon these Pictures, and the system by which they upon these Pictures, and the system by which they are executed, it being within the power of all to call and examine for themselves. The collection embraces many choice views of American and Foreign scenery, which only need be seen to be duly admired and appreciated. Mr. A's system of Drawing and Painting from Nature, is new, easy and very rapid; actually reducing the labor of months and weeks, to days and hours. Very many who have thought themselves without taste, have learned by it to draw and paint from nature, with a freedom, boldness, accuracy, and beauty, seldom acquired in common systems.

Friends of Education, and all those interested in the Fine Arts, are cordially invited to call and set the Paintings which will be exhibited free of charge vir. A. refers to the following letter from York

Penn'a:

The undersigned, patrons and pupils of Mr. Anderson, having taken a course of lessons in Grecian Landscape Painting, take pleasure in expressing our entire satisfaction with the progress we have made in this beautiful art. an under satisfaction with the property of the partial art.

Disease like death is the common destiny of mankind. Till the hour of sickness comes how few ever think of a subject which interest all. Every atom of the material world is constantly undergoing a change—man continually—"he is every thing by time and nothing long." The phenomena of disease presents us with numerous lights and shades, alternating with the numerous agencies by which we are afflicted. Presuming that life is a unity whatever material agent possesses the power of arranging their action. What is disease in its simplest form but an interruption of the electrical motions of the body by agents not compatible with them. These motions may to a dertain extent be either increased or decreased without positively injuring the vital actions of the whole—like the wheels of a time piece, stop one and you influence all—so with disease in all chronic maladies whether affecting one or more organs of the body, we invariably discover them to be effects rather than cures of ill-health. Change the electrical motions which occasion them, and health consequently follows; for this purpose art furnishes no remedy equal to Dr. Keeler's Sarsaparilla. Its virtue has been tested in all chronic, glandular and constitutional diseases. Afflicted: "be wise in time, 'tis folly to defer."

Dr. Keeler—Dear Sir: I take great pleasure in bearing testimony in behalf of your valuable medicine, Sarsaparilla. I have been using it for a pain in the side of long standing, which was occasioned by a severe attack of Pleurisy and fever several years since in the West. For several months past my health has been failing, and the pain in the side so severe at times as to disable me from attending to my business. I have used many remedies with scarce any benefit until I commenced using your Sarsaparilla, since which time my health has gradually improved, so much so that at the present time I enjoy much better health than for years past. I have used the medicine in my family, and consider it infinitely superior to any remedy within my knowledge in chronic affections of the chest and organs of digestion. I am yours very respectfully
