We have received from the contractors full ports of the result of operations upon the great tunnel upon the B. & O. Railroad, and we cannot forbear expressing our astonishment at the result.

The entire distance driven in by the shafts in the space of about five months, is 2384 feet, and of that 7 was driven from the 5th November to the 4th December, inclusive. It is truly an extraordinary work. There is no coal within the excavation, b rock, sand and gravel, the bed being generally dry.

The gas has been introduced into the Episcopal Church of this City.

Disease like death is the common destiny of man-

Disease like death is the common destiny or main distance. Till the hour of sickness comes how few ever think of a subject which interest all. Every atom of the material world is constantly undergoing a change—man continually—"he is every thing by time and nothing long." The phenomena of disease presents us with numerous lights and shades, alternating with the numerous agencies by which ease presents us with numerous agencies by which alternating with the numerous agencies by which we are afflicted. Presuming that life is a unity whatever material agent possesses the power of arresting the motions of the body is capable of deranging their action. What is disease in its simplest form but an interruption of the electrical motions of the body by agents. piest form but an interruption of the electrical mo-tions of the body by agents not compatible with them. These motions may to a certain extent be either increased or decreased without positively injuring the vital actions of the whole—like the wheels of a time piece, stop one and you induence all—so with disease in all chronic maladies whether affecting one or more organs of the body, we in-variably discover them to be effects rather than cures of ill-health. Change the electrical motions which occasion them, and health consequently follows; for this purpose art furnishes no remedy qual to Dr. Keeler's Sarsaparilla. Its virtue has een tested in all chronic, glandular and constitu ional diseases. Afflicted:

Philadelphia, Nov. 22, 1848. Dr. Keeler—Dear Sir: I take great pleasure in bearing testimony in behalf of your valuable medicine, Sarsaparilla. I have been using it for a pain in the side of long standing, which was occasioned by a severe attack of Pleurisy and fever several years since in the West. For several months past my health has been failing, and the pain in the side so severe at times as to disable me from attending to my business. I have used many remedies with scarce any benefit until I commenced using your Sarsaparilla, since which time my health has grad-Sarsaparilla, since which time my health has grad-ually improved, so much so that at the present time I enjoy much better health than for years past. Dr. Keeler—Dear Sir: I feel it my duty to state Dr. Keeler—Dear Sir: I feel it my duty to state to you the good effects your Sarsaparilla has produced on a son of mine, who has been for several years afflicted with what physicians have termed Scrofula. He has been somewhat hard of hearing for several years, accompanied with a constant discharge from the ears, and a dull heavy pain across the forehead; his general health quite feeble, appetite precarious, and bowels irregular. There were swellings of the neck and at the angle of the jaws, the complexion of an asby paleness, and all the characteristics of wasting health. At your request, I commenced giving him your Sarsaparilla. quest, I commenced giving him your Sarsaparilla, and I am rejoiced to state that after using three botdes, there has been a remarkable change for the better. His appetite is now good, the pain across the forehead entirely gone, the swellings have disappeared, the volor of the skin is now like one eninjury and the skill is now like one enjoying good health, indeed he now says he feels well, appetite good, sleeps well, and is really changed, which I attribute solely to your medicine.
