Disease like death is the common destiny of man

bisease like death is the common destiny of man-kind. Till the hour of sickness comes how few ever think of a subject which interest all. Every atom of the material world is constantly undergoing a change—man continually—" he is every thing by time and nothing long." The phenomena of disa change—man continually—"he is every thing by time and nothing long." The phenomena of discase presents us with numerous lights and shades, alternating with the numerous agencies by which we are afflicted. Presuming that life, is a unity whatever material agent possesses the power of arresting the motions of the body is capable of deranging their action. What is disease in its simplest form but an interruption of the electrical motions of the body by agents not compatible with them. These motions may to a certain extent be either increased or decreased without positively injuring the vital actions of the whole—like the wheels of a time piece, stop one and you influence all—so with disease in all chronic maladies whether affecting one or more organs of the body, we invariably discover them to be effects rather than cures of ill-health. Change the electrical motions which occasion them, and health consequently follows; for this purpose art furnishes no remedy equal to Dr. Keeler's Sarsaparilla. Its virtue has been tested in all chronic, glandular and constitutional diseases. Afflicted: "be wise in time, 'tis folly to defer." olly to defer."

Philadelphia, Nov. 14, 1848.

Dr. Keeler—Dear Sir: I feel it my duty to state to you the good effects your Sarsaparilla has produced on a son of mine, who has been for several years afflicted with what physicians have termed Scrofula. He has been somewhat hard of hearing for several years, accompanied with a constant discharge from the ears, and a dull heavy pain across the forehead; his general health quite feeble, appetite precarious, and bowels irregular. The e were swellings of the neck and at the angle of the jaws, the complexion of an ashy paleness, and all the characteristics of wasting health. At your request, I commenced giving him your Sarsaparilla, and I am rejoiced to state that after using three bottles, there has been a remarkable change for the better. His appetite is now good, the pain across the forehead entirely gone, the swellings have disappeared, the color of the skin is now like one enjoying good health, indeed he now says he feels well, appetite good, sleeps well, and is really changed, which I attribute solely to your medicine. I feel fully satisfied from what I have witnessed in SCROFULA CURED.

A GREAT MEDICINE.

We have uniformly refrained from recommend-

We have uniformly retrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters; invented by Doctor Hoofland, and prepared by Dr. Jackson, in Phila-delphia. One instance in particular, in which the superior virtues of this medicine have been tested, superior virtues of this incidente nave been tester, has fallen under our observation. During the last summer, a son of Mr. Abm. Crabill, of this country, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored entirely to health.

stored entirely to health.

READ FURTHER A FEW FACTS. From the Weldon Herald, published at Weldon, N. C., January 24, 1850, which said—PATENT MEDICINES.

It is very seldom that we make any allusion to Parent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inventors and venders of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and have a more and condemn the whole of them and buy no more, and inventors must only blame those of their number, [who ignorantly combine plain medicines together for the purpose of making money,] for the ill success which attends the efforts of the deserving.

We believe Dr. C. M. Jackson's Hoofland's German Bitters to be a most excellent medicine, and one that should be highly popular in these changed, which I attribute solely to your medicine.
I feel fully satisfied from what I have witnessed in my own child, that it is a medicine of unsurpassed power in disease of a Scrofula character. You are

derinal bitters to be a most excellent medicine, and one that should be highly popular in these days of Temperance; for they are altogether Vegetable in their composition, without one drop of Alcoholic Spirits in them. Judge M. M. Noah said, in his Weekly Messenger, January 6, 1850.

Dr. Hooftand's German Bitters.—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hooftand, professor to the University of Jena, private physician to the King of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which be on humoug, and intereste a inedicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the somach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia and severat of the decisions. Nine rimideliping papers express their conviction of its excellence, and severat of the editors speak of its effects, from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's [Dr. C. M. Jackson's] preparation, but in recommending the article to the efficient.
