WHEREAS: The citizens of Lancaster city and county have always been deeply interested in, and intimately connected with the interests of the Pennsylvania farmer, and of late years particularly, have viewed with pleasure the efforts making in their midst and throughout the State, to arouse the attention of the citizens to the study of agriculture as a liberal and enlightened pursuit ;---and believing the recent organization of a Penneylvania State Agricultural Society as one of the chief means to secure a new era in Pennsylvania husbandry ; and where as, it has been represented to us that it is the desire of the officers of the said State Agricultural Society to hold their first Annual Fair and Exhibition at Lancaster, on the 22d, 23d and 24th days of October next, provided a portion of the means necessary to suitable accommodations isguaran teed to them. TRespecting the Wheat crop of Western New York, the Syracuse Journal of the 19th ult. says:

The incoming wheat crop has passed the ordeal of winter without injury, and, in all this section, wears a very promising appearance. It is yet too early to speak positively as to its exemption from frost, but no reasonable apprehensions of danger can be entertained. The plant was unusually well grown and rooted last tall, and the winter has been favorable. It has neither been winter killed or smothered by the snow.

And the editor of the Hagerstown Torch Light speaks of the growing grain, in that vicinity, as follows:

We have never seen it look so promising at this season of the year. The fields are well covered, and the grain is so strong and vigorous, as to throw out of the question, almost, any apprehension that we will not have one of the most abundant crops.

MOBE EVIDENCE.-The Journal, published at New Castle, Lawrence county-by the way a capital Democratic paper-is out with a strong article n favor of Mr. BUCHANAN's nomination for the Presidency. It also publishes the resolutions of the ate Democratic Convention of this county.

THE DIFFEBENCE IN RANK .- A California paper says that when a gentleman has drank too much they say he has a *brick in his hat*—but if a loafer in found in the same condition, they say he is *drunk*.

atom of the material world is constantly undergoing a change—man continually—" he is every thing by time and nothing long." The phenomena of dis-case presents us with numerous lights and shades, alternating with the numerous agencies by which we are afflicted. Presuming that life is a unit, whatever material agent possesses the power of ar-resting the motions of the body is capable of de-ranging their action. What is disease in its sim-plest form but an interruption of the electrical mo-tions of the body by agents not compatible with them. These motions may to a certain extent be either increased or decreased without positively injuring the vital actions of the whole—like the wheels of a time piece, stop one and you influence all—so with disease in all chronic maladies whether affecting one or more organs of the body, we in-variably discover them to be effects rather than cures of il-health. A Novel Question of FREEDOM .- A family of eight negroes sued in Virginia for their freedon claiming under a deed of manumission, execute claiming under a deed of manufacture, by their former master, about twenty years ago New York The evidence was that they were children and the grand children of thei former master, who carried them to New York and there emancipated them to evade the law of Va which did not allow him to emancipate them there without sending them out of the State; that h brought them immediately back with him to Vi and that they were never molested enjoyment of their freedom since his death, which occurred some fifteen years ago, until they wer arrested last summer by the Sheriff, at the instanc of his next kin (blood relatives of the person claimed) and claimed by them as slaves. Th question was whether such a deed of manumissio was sufficient, and the court allowed the question to go to the jury, who returned a righteous verdic in favor of the negroes.

The Whigs and the Presidency.

The Whigs of Pennsylvania seem to be at log gerheads in reference to their candidate for th Presidency in 1852. A portion of the Whig men bers of the Legislature, a short time ago issued card, recommending the people of Pennsylvania t adopt Gen. Winfield Scott, as their leader. This said to be a move on the part of the State adminis-tration to make strength for itself, and it has aroused the ire of the friends of the National Administration in Pennsylvania. Many of the Whig presses de-nounce it as in bad taste and calculated to create distraction in the party. The members who signed, the card are told that they had better attend to their legitimate legislative duties, and permit the people to settle the Presidential question in such ner as to them may seem fitting.

This is a very interesting fight as it stands, and we doubt not it will become more attractive as it progresses .- Dem. Union .

FROM TEXAS.—The slave population of Gonzales county has doubled in the last year, and the agricultural products are said to have increased beyon any past experience. Other western counties are reported to have had a proportionate share of emi-gration. It is also added that the emigration to the eastern counties of the State, especially those lying on the upper Trinity rivers, has uearly doubled the population both of whites and blacks, as compared population boin or writes and oracas as compared with last year. It is predicted that, in case the present year shall be favorable for crops, the amount of exports from Texas will exceed that of any preus similar period. The Galveston Journal says, in speaking of the Trinity trade, that there are m than three thousand bales of cotton on that river waiting shipment, and that under favorable circumstances, the quantity of cotton which will be shipped from the Trinity valley next season to Gal-

n, will reach thirty thousand bales. The New Orleans Crescent publishes a letter from a correspondent in Texas, in which the con-struction of a railroad from that city to the Sabine, to be continued thence, when population will war-rant it, toSan Antonio or the Rio Grande, is earnestly advocated.

SLEIGH FOR THE WORLD'S FAIR .- The Messrs. James Goold & Co., of Albany, have finished a pony sleigh of very beautiful workmanship, for the World's Exhibition. It is finished with crimson velvet cushions, and the ornamental painting on the body is described as admirably done.

BROKE JAIL .- The prisoners confined in the jail t Allentown, (six in number,) made their escape n Tuesday, by cutting a hole through the ceiling, through which they passed into the loft, escaping thence by means of their blankets cut into strips, -thence by and used as ropes to let them down from the win-

FROST IN TEXAS .- There was a very severe frost IN ADDATING LEXAS.—There was a very severe iron to in San Antonio, Texas, on the 10th ult, which kill-ed many of the garden vegetables that were quite forward and cut down a great deal of the young corn, which had just made its appearance above
