FIRE-PROOF PAINT! ONE OF THE MOST IMPORTANT DISCOVERIES OF TH PRESENT AGE.

PRESENT AGE.

PRESENT AGE.

THIS mineral compound is found in the town of Litchfield, Herkimer County, N. Y., in a gult' about six hundred feet below the surface of the surrounding country. When taken from its bed, it presents a beautiful color resembling mahogany. After a fair trial, it is pronounced by competent judges to be far superior to the Ohio paint. One of its important components being red oxyde of iron, an intelligent public will readily see that the different colors are more readily brought out by mixing a less quantity of other paints, than if it were black oxyde, getting a livelier color at less expense.—Forming a perfect cement body, a large portion PRESENT AGE.

ORNAMENTAL PAINTING.

This composition will be found especially useful or painting all kinds of outside, houses, steamboats,

ships, schooners, sloops, &c., as it is wholly imper-vious to water, and less attractive to the rays of the sun than any other paint now in use. In introducing this paint to the public, the pro-prietor flatters himself that the superior advantages

he has in obtaining the raw material, it being pur and taken from a bed one hundred a fifty feet i

height and being the finest and purest substance of the kind, or as much so as any in the world; and in addition to that, exposed to action of rain and frost, rendering it constantly softer and purer, and

no pains shall be spared in manufacturing. After testing its qualities they will be satisfied it is not an imposition upon their credulity, (of which there is so much done at the present day,) but on the con-

trary, the high commendation it received is suff

cient to warrant its reception.

For cottages, of either wood or brick, this paint cannot be too highly recommended. For Ruilroad Depots, Bridges, Cars, and Public Buildings of all descriptions, it is invaluable. It is now being used on the Atlantic Steamers and Packets, with great stiffering and must coop superside all others.

on the Atlantic Steamers and Packets, with great satisfaction, and must soon supersede all other paint, for like purpose. For coach painting it is said to be a perfect desideration, it being suscepti-ble to the highest polish, and forming a surface as hard as marble. For Farm Houses, Out Buildings,

Fences, Factories and Foundries, its value car

scarcely be calculated; its fire and weather proof qualities have been thoroughly tested, and has found favor with the public, so much so, that a building covered with this paint will insure at less premium

A few testimonials are annexed of men who are

competent to judge:

E. W. Fish, of Herkimer co., N. Y., 1 concur in the above analysis, and believe it to be capable of forming the most durable coat of any substance now used. M. C. Brown.

We hereby certify, that we have used in painting Fish's Fire-proof Paint, and think it excels any thing of the kind we ever used. We have painted some of the best brick buildings in Albany with it

I have used and sold large quantities of the New York Fire-proof Paint, from the Farm of Mr. E. W. Fish, in Herkimer county, and am well satisfied that it possesses qualities superior to Blake's Fire-proof Paint, and superior to any similiar kind of Raint now in this market and heretofore used by

our painters, and besides, is afforded at a less price than others that I consider inferior to it in quality.

We hereby certify, that we have used in painting, E. W. Fish's Fire-proof Paint, and cheerfully recommend it to the public as the most valuable paint we have ever used, being in its native state a beautiful color for all outside painting, which may be cheaply changed to almost any desired color, form-

ing a heavier and harder coat than any other paint now in use.

E. W. FISH'S MINERAL COMPOSITION BRANT PURIFYING EXTRACT

The Greatest BLOOD PURIFIER IN THE WHOLE WORLD! Price \$1 per Bottle, or Six Bottles for \$5. is now put up in QUART BOTTLES, of the spoor and medicat officacy as when in small bottles. Large bottle contains SIXTY-FOUR DOSES, the medications are so Strongly Concentrated outly One Tolleproprial required at a Dose—three is a day—thus one bottle lasts Twenty-One Days, he is much longer than a bottle of any other medicine, because there is required of this a less quantity Forming a perfect cement body, a large portion being silica, it bids defiance to the action of the weather, and is a great protection against the de-

at a dose.

The great Superiority of this Blood Purifier over all other medicines, consists in a great measure in its possessing as a part of its compound, the preserful Medical Virtues of some Scarce and Rare vouring e ement.

All the colors may be got up from this composition, from a beautiful lead to a jet black, with less than half the expense of the usual way, forming a harder coat, which is believed to be twice as valuable. It is also susceptible of receiving a high polish, and may be use for the finest kind of ORNAMENTAL PAINTING.
