The Cambridge, Md. Democrat says that the wheat crop in that county is very promising, but the fly has appeared in some fields. The grate worm is also cutting the corn.

FATAL ACCIDENT IN COLUMBIA.—On Monday morning of last week, as a train of cars was leaving Columbia, a man named Madden was instantly killed by being run over by a loaded cart, near the railroad depot. The unfortunate man was driving a cart filled with stone, when his attention was directed to a person in the cars, and while looking, stumbled and fell, and one of the wheels passed over his abdomen, causing immediate death. He was about 30 years of age, and leaves a family.

In Columbia, on Tuesday the 3rd inst., after a protracted illness of enlargement and tuberculous disease of the heart, Mr. CHARLES ODELL, in the 29th year of his age.

The deceased was a very exemplary young man, and had, by his modest and unobtrusive deportment and strict integrity of character, won for himself the confidence and esteem of his fellow citizens the confidence and esteem of his fellow citizens. CINCINNATI, June 6th-101 P. M. GREAT FLOOD IN THE MISSISSIPPI.—A great flood has occurred in the Mississippi and Wisconsin rivers, destroying property to an incalculable amount. A large portion of Fort Winnebago is unindated and several flouring mills at Peru have been carried away. The Burlington, lowa Gazette, states that the tributaries of the Mississippi are greatly swollen, and much damage done in the viand strict integrity of character, won for insensithe confidence and esteem of his fellow citizens and the marked respect of a large number of friends and acquaintances. To the members of his afflicted family he was peculiarly endeared; as with them bis many virtues were best understood and appreciated; and by whom the bright-image of his moral worth will long be cherished to supply the place made vacant by death. Mr. Odell. had long been an active and useful member of the Columbia Fire Engine and Hose Company, which body attended his remains to their last resting place wearing badges of crape as a mark of respect for his many manly traits of character. The river is within eighteen inches of the great flood of 1844. At Hannibal, Mo., the river is rising rapidly, and the country for fifty miles in length, and six in breadth, is unindated.

A MAN MISSING-FOUL PLAY SUSPECTED .-The worst fears are entertained as to the fate of a person named Babb, says the Clearfield Republican, who has been attending to the business of an exten sive land company, as agent, in this and the adjoining counties of Clinton and Elk. Mr. Baab left the first fork of the Sinnemahoning on Tuesday the 13th inst. to come to or near Clearfield. He took Wykoff road to Karthoust, intending to strike the Smethport turnpike at Smiths, and was on foot, the smethport tumpike at Smiths, and was on foot, carrying a carpet bag and some surveying instruments. Since that, no trace of him has been found, although a large number of people have been searching the woods ever since. A number of different states have instantial circulture by ferent stories have obtained circulation, but the facts are as above stated. Mr. Baab is supposed to have had a considerable sum of money with him but those who know him do not for a moment en ertain any other opinion than that he has fell into the hands of an assassin.

The employment of a pulser at a pulser action, vitiates a sale, and the buyer is defrauded even though he did not pay more than the article was worth in the opinion of witnesses. A man is defrauded whenever he is indited by artful means to bid more than he otherwise would; and whenever the price is even so little enhanced by a secret contrivance, he is cheated. Judgement reversed. A COWHIDING FOR A KISS .- A young man by

the name of Pownelson, a daguerreotypist, was cowhided in Broadway yesterday, for kissing a young lady at the daguerreotype rooms of her father in the upper part of the city. The chastisement was inflicted by the lover of the young lady, who, of course, felt that he had pre-emption rights to all such little luxuries. But the young man was sorely tempted; and the young lady had no business "If a body kiss a body

from Bronchial affections, connected with a weak-ened and deranged state of the stomach, especially if accompanied with acidity, which is no ently the cause of disease, are referred to the m the St. Louis Herald.

OXYGENATED BITTERS.—Among our advertisements are some of the most approved patent medicines, one of which, the Oxygenated Bitters, we While under medical treatment by physician in this city, for a distressing bronchits of two years' standing, we were induced to try these Bitters, suspecting they were composed of the very thing which he had prescribed. The effect was immediate and permanent, and the cure soon completed. Wherever a bronchitis is connected with a deranged stomach, we have no doubt this medicine will give great relief. The patentee has the merit of rare honesty, when he tells us to stop taking the medicine, if not benefited by two or ree bottles.

E. W. FISH'S MINERAL COMPOSITION FIRE-PROOF PAINT! ONE OF THE MOST IMPORTANT DISCOVERIES OF THE

sun man any other paint now in use.

In introducing this paint to the public, the proprietor flatters himself that the superior advantages he has in obtaining the raw material, it being pure and taken from a bed one hundred a fifty feet in beight and being the finest and purest substance of the kind one was the concession the world and

kind, or as much so as any in the world; and

in addition to that, exposed to action of the frost, rendering it constantly softer and purer, and no pains shall be spared in manufacturing. After testing its qualities they will be satisfied it is not an imposition upon their credulity, (of which there is so much done at the present day,) but on the con-

trary, the high commendation it received is suffi-

cient to warrant its reception.

For cottages, of either wood or brick, this paint cannot be too highly recommended. For Railroad Depots, Bridges, Cars, and Public Buildings of all

Depots, Bridges, Cars, and Public buildings of an descriptions, it is invaluable. It is now being used on the Atlantic Steamers and Packets, with great satisfaction, and must soon supersede all other paint, for like purpose. For coach painting it is said to be a perfect desideratum, it being susceptible to the highest polish, and forming a surface as hard as marble. For Farm Houses, Out Buildings,

Fences, Factories and Foundries, its value car

rences, Factories and roundress its value can scarcely be calculated; its fire and weather proof qualities have been thoroughly tested, and has found favor with the public, so much so, that a building covered with this paint will insure at less premium than a building covered with other paint.

A few testimonials are annexed of men who are

I have used the New York Fire-proof Paint, from the farm of Elias W. Fish, in Herkimer county, and am well satisfied of its superiority for painting outside of buildings, roofs, &c., &c. I have used and sold large quantities of the New York Fire-proof Paint, from the Farm of Mr. E. W. Fish, in Herkimer county, and am well satisfied that it possesses qualities superior to Blake's Fire-

our painters, and besides, is afforded at a less pric than others that I consider inferior to it in quality

We hereby certify, that we have used in painting E. W. Fish's Fire-proof Paint, and cheerfully recommend it to the public as the most valuable pain we have ever used, being in its native state a beau

ONE OF THE MOST IMPORTANT DISCOVERIES OF THE PRESENT AGE.

THIS mineral compound is found in the town of Litchfield, Herkimer County, N. Y., in a gulf about six hundred feet below the surface of the surrounding country. When taken from its bed, it presents a beautiful color resembling mahogany. After a fair trial, it is pronounced by competent judges to be far superior to the Ohio paint. One of its important components being red oxyde of iron, an intelligent public will readily see that the different colors are more readily brought out by mixing a less quantity of other paints, than if it were black oxyde, getting a livelier color at less expense.—Forming a perfect cement body, a large portion F. The large amount of sales, and the increasing demands upon this establishment, have enabled the proprietor to offer greater inducements to purchasers, than on any former occasion, bringing every article within the abilities of the laboring man and the Mechanic, as well as the Farmer and the pro-Forming a perfect cement body, a large portion being silica, it bids defiance to the action of the veather, and is a great protection against the de-

vouring element.

All the colors may be got up from this composition, from a beautiful lead to a jet black, with less than half the expense of the usual way, forming a harder coat, which is believed to be twice as valuable. It is also succeptible of receiving a high polish, and may be use for the finest kind of ORNAMENTAL PAINTING.

This composition will be found expecially useful article within the abilities of the laboring man and the Mechanic, as well as the Farmer and the professional man. Confident of giving satisfetion, and that his future efforts will be appreciated and surrably rewarded, F. J. KRAMPH embraces the present as a proper opportunity of returning his sincere thanks to his friends and a generous public for past patronage. This composition will be found especially useful or painting all kinds of outside, houses, steamboats, for past patronage.
