Strasburg, Aug. 19. HORSES MADE SOUND BY THE

CURE OF HEAVES,

By Sir James Lyndonton, Principal Farrier to his Royal Highness Prince Albert.

The great discovery contained in this little work procured Sir James his Baronetoy. It is really its weight in gold to all who own or use Horses. It prescribes a Certain and Positive Cure for the Heaves, which any person can prepare. The remedy is better and cheaper than any advertised Heave Powder, and is perfectly safe, as any can know who tries it. Horse owners know that many a valuable horse losses half his price by this prevalent disease. The remedy prescribed in this work will cure him and increase his market value, besides relieving the poor beast of a horrible complaint, similar to the Asthma in a man. The public can depend on this work: it is no catchpenny humbug. The articles prescribed by Sir James are all cheap and can be had a tany store. To prevent imposition the work will be sent in sealed envelopes. English price, four shillings and three pence sterling.—American price, 81 per cony Person endering the work will be sent in sealed envelopes. English price, four shillings and three pence sterling.— American price, \$1 per copy. Persons ordering Sir James' work are expected to confine his instruction to their own animals. It will be sent to none others. Address, post paid, JOHN DUNBERTON, English Horse Doctor, American Agent for Sir James Lyndonton's.

Important to Farmers & Threshing Machine Makers.
The subscriber respectfully informs the public that he has lately completed a TRIPLE POWER, INTERNAL GEARED HORSE POWER, which outrivals any other in use, It is made entirely of Iron, both Frame and Gearing. The Journals are Cast-Steel—its weight is 600 lbs. On trial it has proved itself capable of performing from 50 to 100 per cent. more work than other Powers with the same labor of the team. It is warranted to hold 8 horses.

have also completed a combined THRESHER AND CLEANER, which is capable of Threshing and Cleaning from 300 to 500 bushels of wheat per day, with from 6 to 8 Horses, and an equal number of hands. 4 Horses can thresh with it from 100 to 900 bushels. day, with from 6 to 8 Horses, and an equal number of hands. 4 horses can thresh with it from 100 to 200 bushels per day of wheat, and 400 to 500, of cats. It is very convenient for those who follow Threshing, and for two or more farmers to own in company; it is more convenient to move than any machine in use. The Machine stands on the wagon while threshing—the Power is londed on the same wagon in moving—two horses are sufficient to move it; it will save enough labor in threshing 2000 bushels to pay its extra cost. It will thresh in the field or by a stack as conveniently as in a barn. The cylinder and concave can readily be adjusted so as to thresh with equal facility both tough and dry grain. It is free from the complication and liability to get out of order of other machines of the kind, and of less cost—price \$100,00.

CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures affected by its use, but we would present the following opinions of eminent men, and refer further inquiry to the circular which the Agents below named, will always be pleased to furnish tree, wherein are full particulars, and indisputable proof of these facts.

Cure of Consumption, LIVER COMPLAINT, COLDS, COUGHS, ASTHMA, BRONGEHITS, AND ALL THROAT AND LUNG COMPLAINTS. And ALL THROAT AND LUNG COMPLAINTS.

I have published a brief work on Consumption, which contains an invaluable recipe for the cure of these prevalent diseases, even in their worst stages, when friends and physicians have given up all hopes. The hints on diet, dress, exercise, &c., are very valuable. The LUNG BALSAM prescribed in this work cures without the expensive scr., are very valuable. The LUNG BALSAM prescribed in this work cures without the expensive aid of physicians or injurious use of patent medicines. In adopting this system of cure the patient knows what he is using—knows that he is not shortening his days by the use of anodynes or mercurials, which may seem to relieve but never cure. He knows when using this Life-saving Balsam, that he is taking mild, pleasant, efficacious remedies, such as Nature prescribes for the ille her children suffer. The ingredients composing the Lung Balcon and the contract of the sum of the lung and the sum of the lung and the lung The ingredients composing the Lung Balsam are obtainable, (cheaply too,) wherever consumption exists, proving that every ill has its antidote. Conexists, proving that every ill has its antidote. Consemption patients may rely on this recipe—(all Lung complaints are removed by its use)—I would not attach my name to it, had I doubt of its efficacy. The directions for preparing and using the Balsam are perfectly plain. I prefer selling the Recipe to making the Balsam, as it enables people to make their own medicine at a trifling cost. I will impart the secret of making the Balsam, and the Family Right to use it, for \$1; but in no case will I sell it for speculative purposes.

Eldridge's Patent Corn Sheller. THE attention of the public is invited to this improvement in CORN SHELLERS, which is improvement in CORN SHELLERS, which is acknowledged to be far superior to any other—being on an entirely new principle; shelling the corn lengthwise of the ear, the cob passing straighthrough without revolving, thereby requiring no gearing to increase its speed, which adds so materially to the cost of other machines. It turns easier and shells cleaner than any other, and is portable in size, and durable in construction. Persons interested are invited to call and see it in operation.
