How can it be possible that the destiny of man should be governed by the mere shuffling of spack of cards? and yet there are thousands who allow themselves, with open mouths, to swallow the greasy words of some old woman, whose true skill consists in filling them with wonders that are more for the digestion of others, who credulous, yet more scientific. It is such that bring discredit on a profession that has been acknowledged to be a science. scientific. It is such that bring discredit on a pro-fession that has been acknowledged to be a science of the highest order, from time immemorial; and it is the only profession that has holy authority to sus-tain it. The high respect which General Taylor and the following gentlemen had for Astrology is, shown by his letter for his nativity, of the 10th of February, 1846, to the subscriber, in which he pre-February, 1840, to the subscriber, in which repredicted all his victories, and named the places of the late war with Mexico; he also predicted that he would be elected President of the United States, and also foretold that he would not live but a short time after his election, which prediction has been

filled to the very letter.

In addition to his power to foresee future events he has the power to give such information as will effectually redeem such as are given to the free use of the bottle. He is also capable of curing disease: of the buttle. He is often asked what a nativity is: he answers, according to Geomancy, one of the seven points in the science of Astrology, that it is a Horoscope of the future events of a persons's life, carefully calculated and transcribed on paper, containing an account of all the lucky and unlucky days in the months and years of the person's life for whom it is cast; by which means thousands in this country and elsewhere have been prevented from misfortunes plassing by which was been prevented from misfortunes also where have been prevented from misfortunes that had been hidden in the womb of futurity, by reterring to their Nativity before entering on any speculation of business or pleasure. It should be

speculation of business or pleasure. It should be speculation of business or pleasure. It should be in the hands of every one as their Almanac of lif. A Nativity of an individual can only forwarn the possessor of troubles that are in future for him; those who are involved in present difficulties of any kind must wait on the subscriber in person or by letter, who is presented to exert his influence for their immediate benefit. He is ready to use his influence to foretell the result of lawsuite, and all undertakings in which there is a risk involved; he also makes use of his power for the estoration of stolen or los property, which he has used for the advantage of thousands in this city and elsewhere.
