THE constant, unsolicited applications for Life Insurance, furnish the most abundant and gratifying proof, that the public mind is deeply impressed with the vast importance of this subject.—
The great object however of Insurance should be SAFETY, otherwise the whole motive of Insurance may be disappointed. Too much care cannot be practised in the selection of an Office, with which to effect the contract. The choice should be regulated, not by present and constant large inducements as this is certainly incompatible with future benefits, therefore, are given, the result ultimately must terminate in litigation, disappointment and ruin.—
The objects aimed at by this Company are stability and perpetuity. The rates of premium have been carefully prepared with reference to fluctuations. The Cash System of payments has also been adopted—unpaid premium notes constitute no part of the assets of this company—and every contingency being fortified with an ample capital, SECURITY stamps the whole system; this feature, paramount to all other considerations, commends this company to public favor.

Cure of Consumption, LIVER COMPLAINT, COLDS, CODGES, ASTHMA, BRONCHITS, AND ALL THROAT AND LUNG COMPLAINTS. I have published a brief work on Consumption, which contains an invaluable recipe for the cure of these prevalent diseases, even in their worst stages, when friends and physicians have given up all hopes. The hints on diet, dress, exercise, sc., an nopes. Inc hints on diet, dress, exercise, ac., &c., are very valuable. The LUNG BALEAM pre-scribed in this work currs without the expensive aid of physicians or injurious use of patent medi-cines. In adopting this system of cure the patient knows what he is using—knows that he is not shortening his days by the use of anodynes or mercurials, which may seem to relieve but never cure. He knows when using this Life-saving Balsam, that he is taking mild, pleasant, efficacious remedies, such as Nature prescribes for the ills her children saffer. The ingredients composing the Lung Balsam are obtainable, (cheapfy too,) wherever consumption exists, proving that every ill has its antidote. Con semption patients may rely on this recipe—(all Lung complaints are removed by its use)—I would not attach my name to it, had I doubt of its efficacy. The directions for proparing and using the Balsam ening his days by the use of anodynes or mercurials, The directions for preparing and using the Balsam are perfectly plain. I prefer selling the Recipe to making the Balsam, as it enables people to make their our medicine at a trifling cost. I will impart the secret of making the Balsam, and the Family Right to use it, for \$1; but in no case will I sell it for speculation process.
